Amargosa Desert

STAGECOACH ROAD FAULT

EXPLANATION

- LINEAMENT (approximately located); dashed where poorly displayed, dotted where probable but concealed, queried where questionable
- Nature of lineament:
 - offset of bedrock
 - Bar and ball on apparent downthrown side of normal fault; arrows indicate direction of apparent strike-slip displacement; blocks on upthrown side of reverse fault
 - v-vegetation alignment; d-drainage alignment; s-scarp in bedrock/alluvium; c-tonal contrast; f-fracture; t-topographic or geomorphic feature; i-filled fracture/dike
 - ⊕ Syncline
