EXPLANATION

HIGH-WATER MARK, NUMBER, AND ELEVATIONS—Number in large type is mark number referenced in table I.
Numbers in small type are elevations in feet above sea level.*
Upper value is elevation of high water, and lower value is elevation of land surface. High-water elevations at a site are designated as inside (i) or outside (o) marks.

*Sea level refers to the National Geodetic Vertical Datum of 1929—a geodetic vertical datum derived from a general adjustment of the first-order level nets of the United States and Canada, formerly called Sea Level Datum of 1929.
