EXPLANATION

AREA INUNDATED BY STORM TIDE

LANDWARD EXTENT OF STORM-TIDE INUNDATION

**HIGH-WATER MARK, NUMBER, AND ELEVATIONS**

Numbers in large type are marks numbered continuously from 1.

*Numbers in small type are elevations in feet above sea level.*

Upper value is elevation of high water, and lower value is elevation of land surface. High-water elevations are designated as inside () or outside () marks.

---

*Sea level refers to the National Geodetic Vertical Datum of 1929—a geodetic vertical datum derived from a general adjustment of the first-order level nets of the United States and Canada, formerly called Sea Level Datum of 1929.*
