The map is intended for the general public and does not reflect official endorsement by the U.S. Government.

The map shows the generalized terranes and overlap assemblages for onshore parts of the Circum-Pacific region. It includes contributions from various organizations and researchers, as noted in the list below.

1. U.S. Geological Survey
2. Russian Academy of Sciences
3. Geological Survey of Canada
4. Geological Survey of Finland
5. Geological Survey of the Soviet Union
6. Geography and Geophysical Surveys
7. Russian Committee on Geology
8. Michigan State University
9. Export Production Research Company
10. University of Alaska
11. Geological Survey of Japan

The map is available in digital formats and can be accessed for educational and research purposes. It is updated periodically to reflect new data and research findings.
