

DEPARTMENT OF THE INTERIOR
U. S. GEOLOGICAL SURVEY

A selected bibliography of sand and gravel resources
Arctic Coastal Plain, Alaska

by

John P. Galloway¹ and L. David Carter²

Open-File Report 97-702

This report (map) is preliminary and has not been reviewed for conformity with U.S. Geological Survey editorial standards and stratigraphic nomenclature. Any use of trade names used in this report is for descriptive purposes only and does not imply endorsement by the United States Geological Survey.

INTRODUCTION

Given the demand for geologic information and an increasing interest, both at the national and international levels, in geological processes in arctic environments, the development of a selected bibliography of sand and gravel resources of the Arctic Coastal Plain, Alaska, was prepared to help land use managers, at both the federal and state level, to prepared reports involving the use of sand and gravel resources located in the lands they manage.

References for the bibliography were copied from a variety of sources (see below). Although completeness is desired, this bibliography has not benefited from a thorough search of all doctoral and master's theses and unpublished literature held by private industry.

Any errors or omissions in this report are those of the authors. The authors would appreciate any comments on the bibliography, especially additions or errors in the citations.

SOURCES OF BIBLIOGRAPHIC DATA

References were copied from the following compilations. References were not checked for accuracy (except in cases of obvious errors). All references are in standard U.S. Geological Survey bibliographic format.
