1999
The image contains a geologic map of the Uncas 7.5° Quadrangle in Clallam and Jefferson Counties, Washington. The map illustrates various geologic units and deposits, including formations and deposits of Vashon Stade of Fraser Glaciation, Crescent Formation (Lower and Middle Eocene), and other units. The map also includes contour lines and labels indicating elevation and geographic features. The map is a valuable resource for understanding the geology and history of the region.
