

## 1996 Survey

### 5c. Pseudo-colored Backscatter Intensity, Shaded Relief and Topography

**Figure 5c.** Shaded relief draped with pseudo-colored backscatter intensity and depth contours displayed at 1 m intervals for the 1996 survey. The boundaries of the Historic Area Remediation Site (brown), the Primary Remediation Area (divided into 9 cells outlined in blue), the Mud Dump Site (red), the no-discharge zone (black), and the western part of the Cellar Dirt Disposal Site (green) are also shown. White areas are areas of no data. See the Maps section of the text for a description of the how these images were created from the multibeam data.
