

Appendix C: Location of Measured Sections

This appendix provides maps that show the locations of the measured sections that are included as the Plates for this publication.

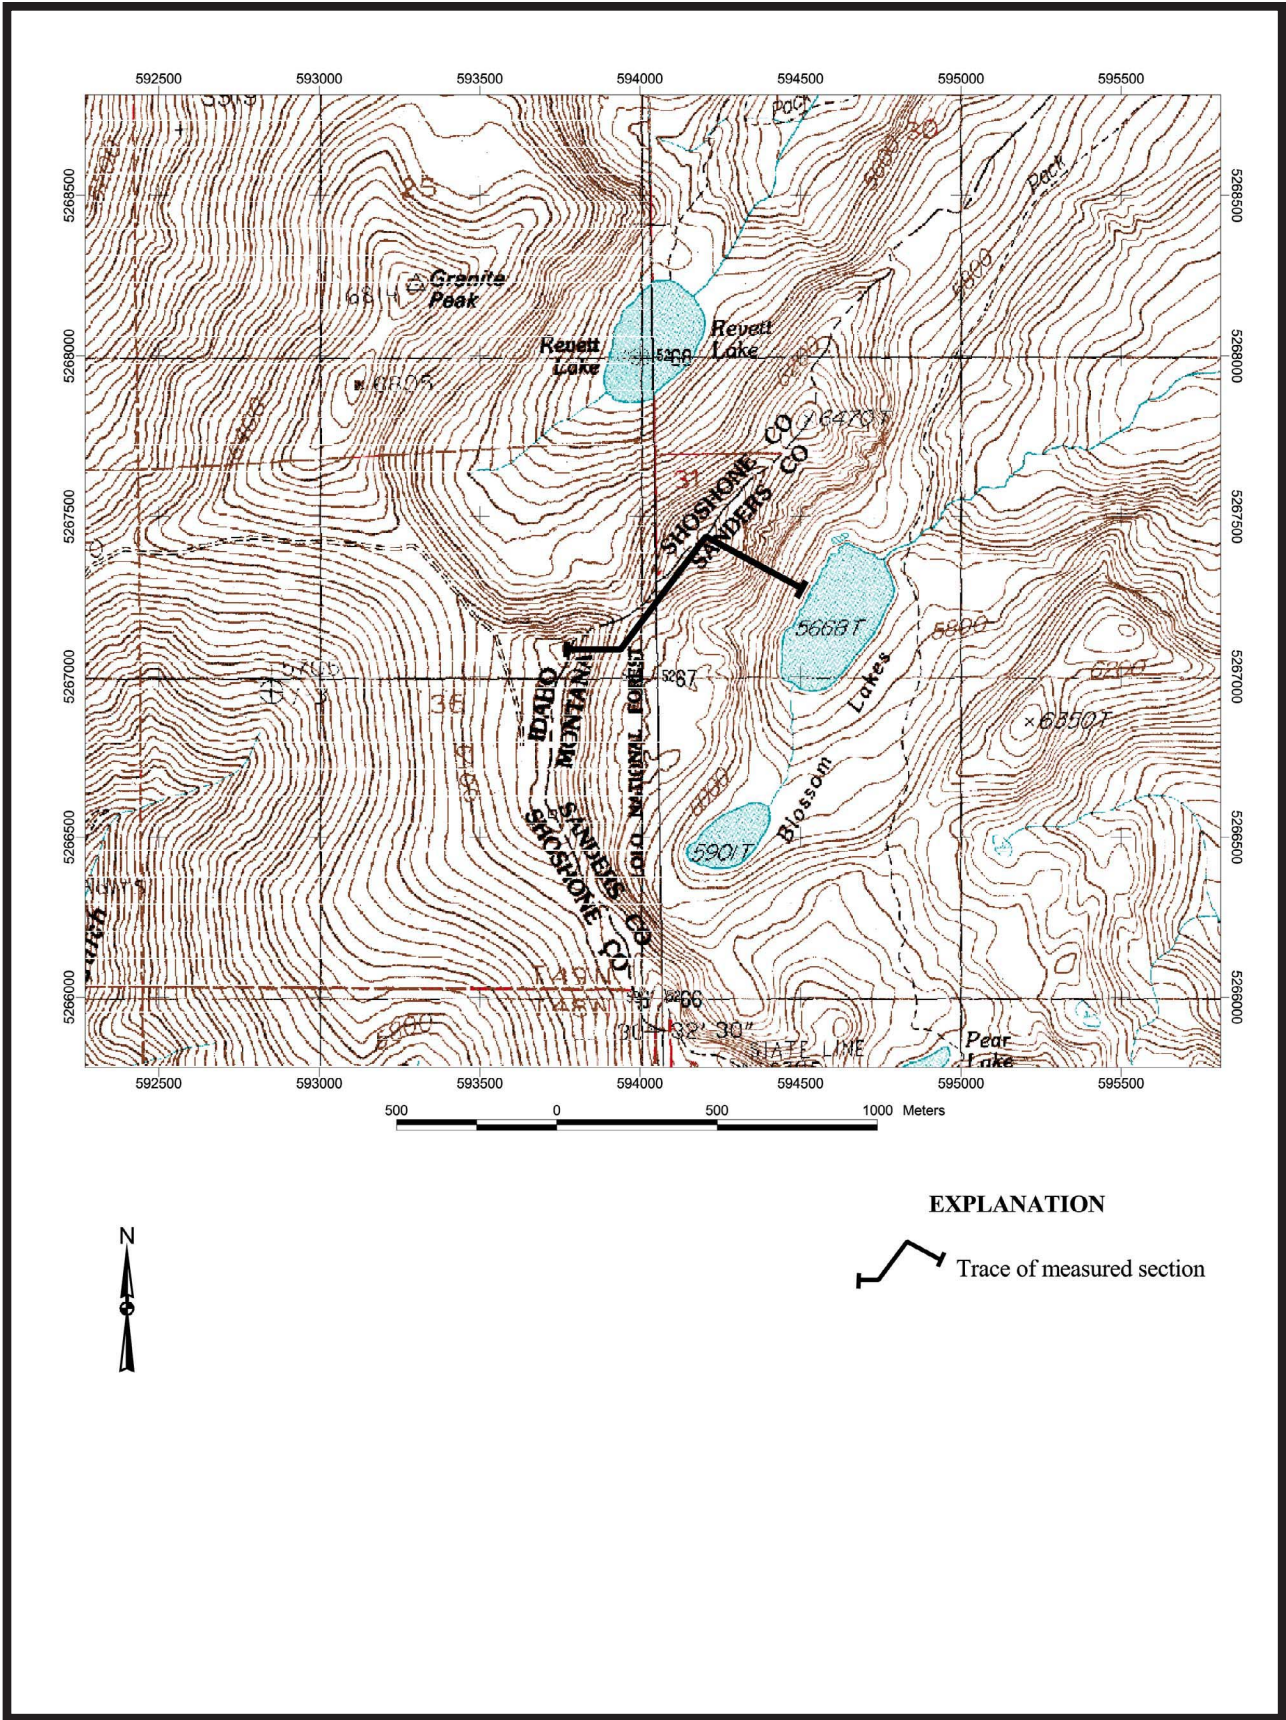

Figure C-1. Location map number B,L,a, depicting the location of the Blossom Lakes section. Base map from Thompson Pass, MT-ID and Burke, ID-MT quadrangles.

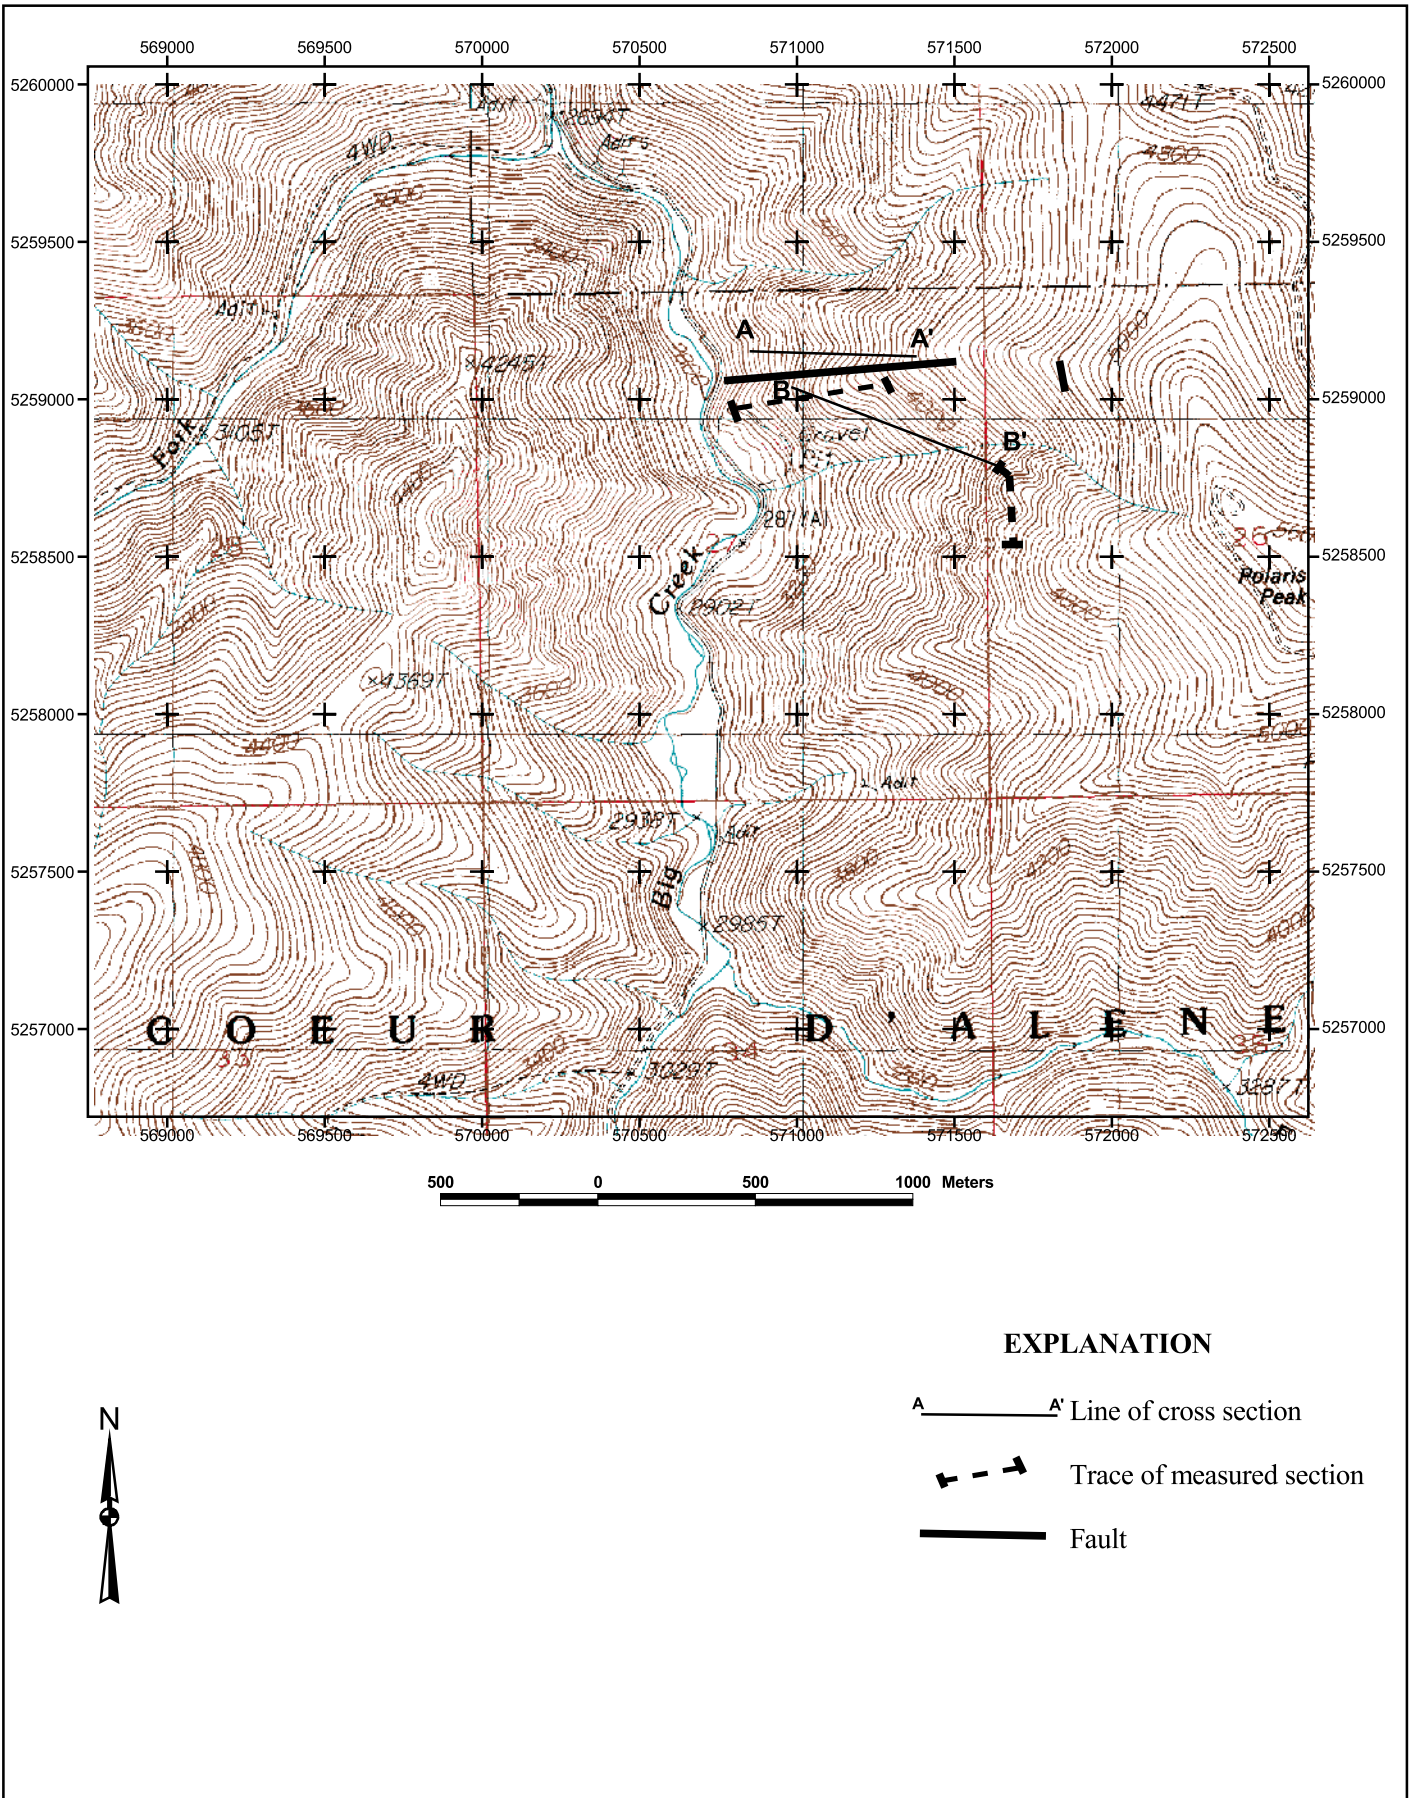

Figure C-2. Location map number B.C.a, showing the location of the Big Creek sections, trace of fault, and locations of cross sections. Base map from Polaris Peak, ID quadrangle.

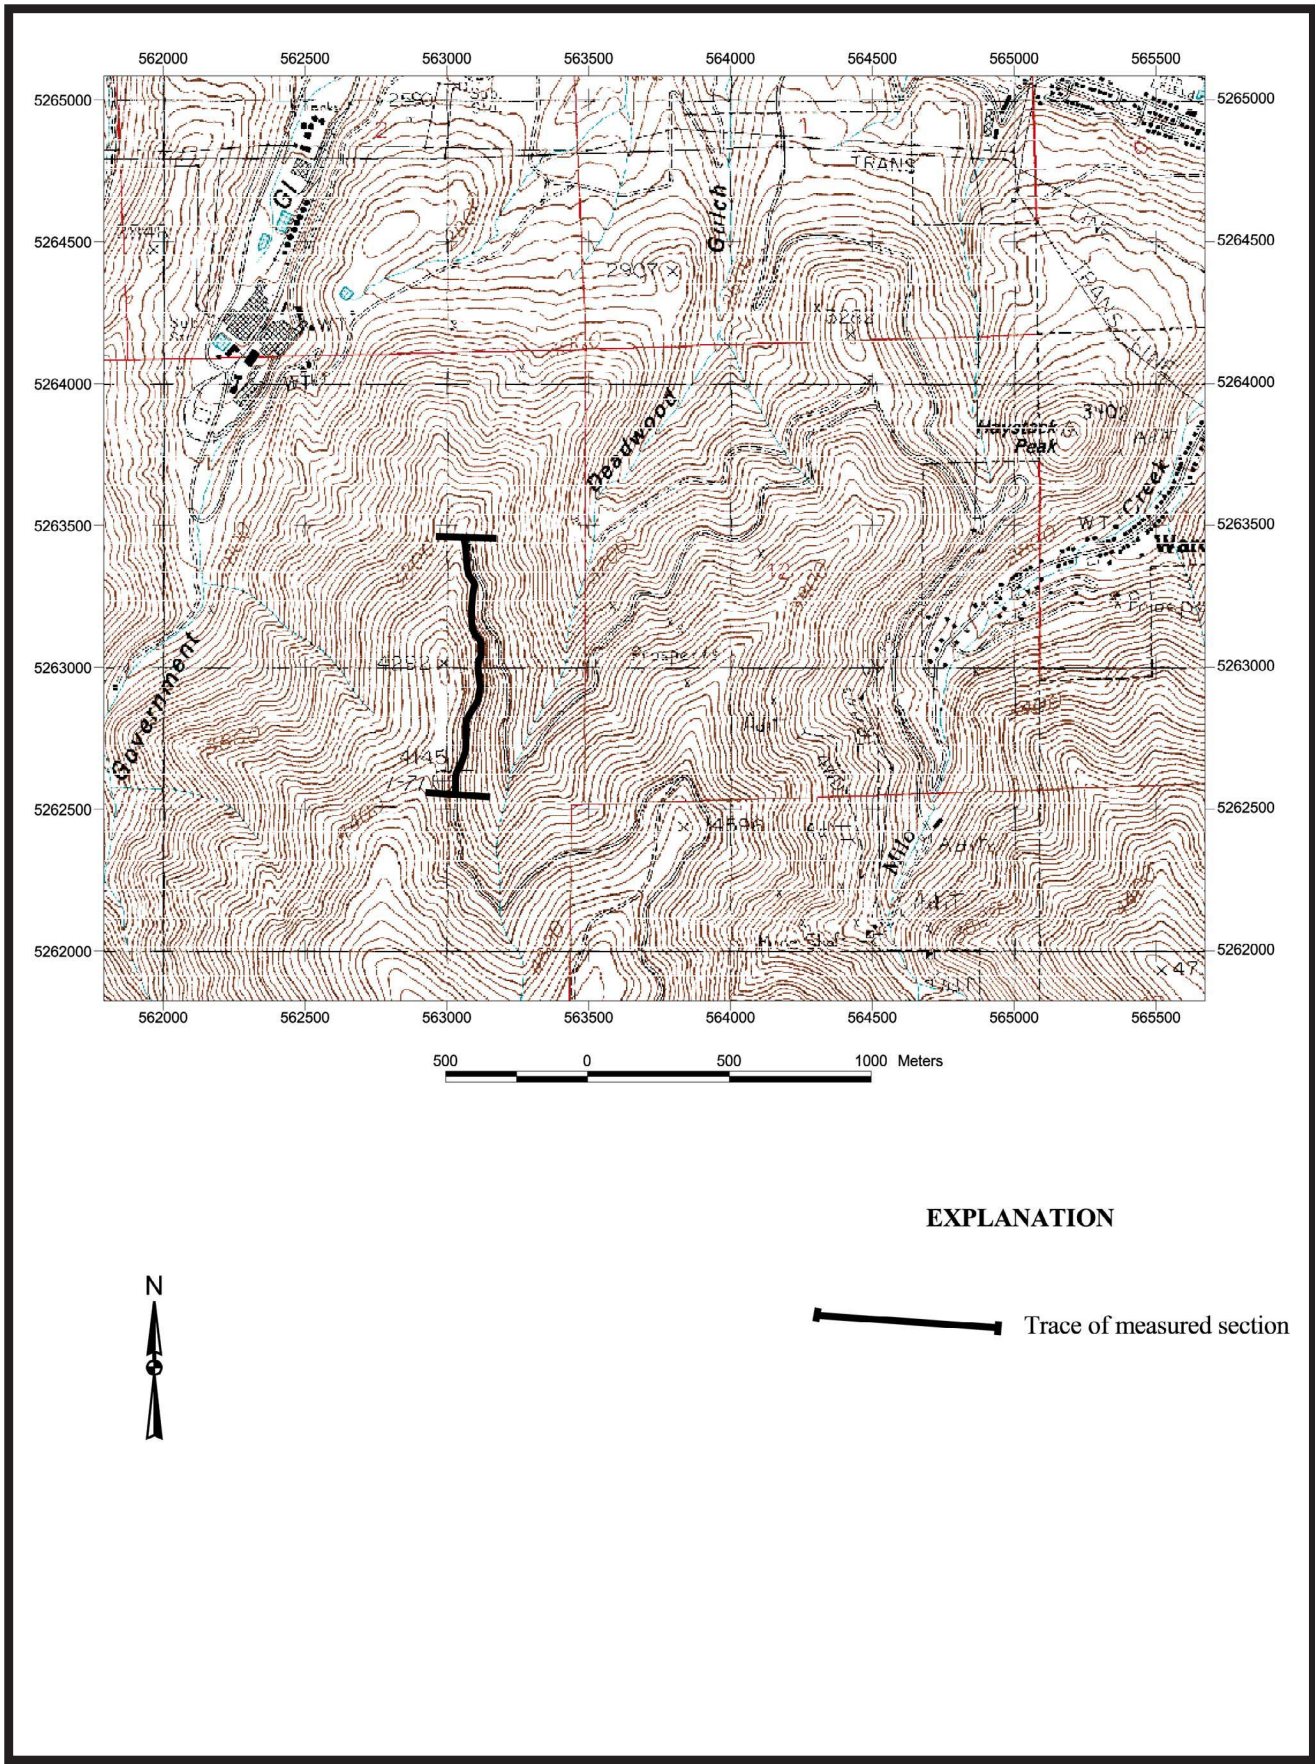

Figure C-3. Location map number D,G,a, depicting the location of the Deadwood Gulch Section. Base map from Kellogg West, ID quadrangle.

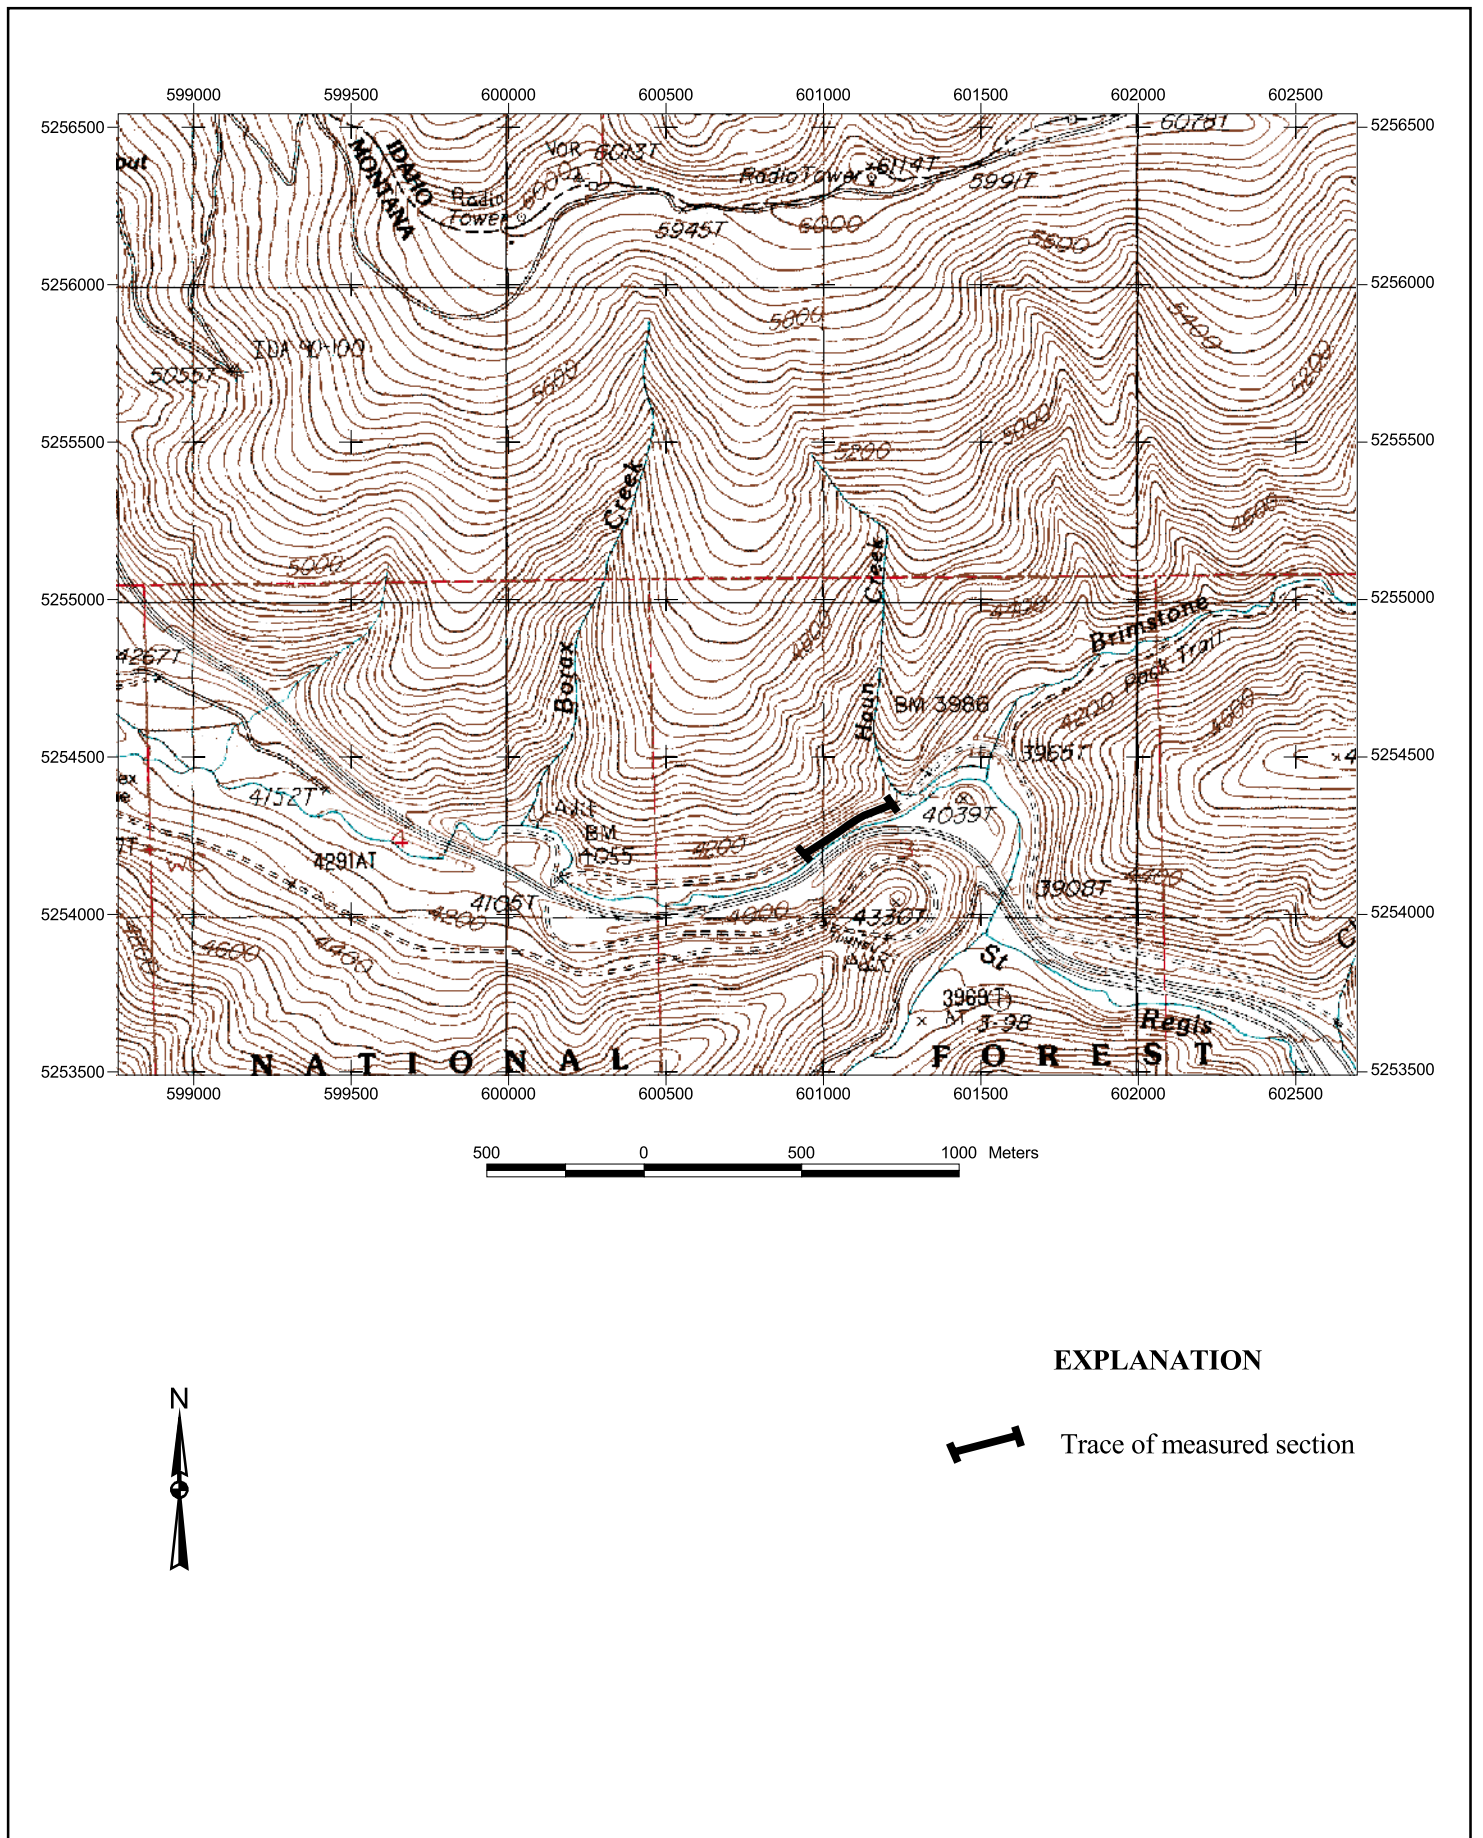

Figure C-4. Location map number L.P.a, showing the location of the Lookout Pass section. Base map from the Lookout Pass, MT-ID quadrangle.

Figure C-5 is meant to show the location of the Military Gulch section. However, the photocopy that I have in my version of the Revett study is not clear enough to locate the section precisely, and I was not able to get the original maps that were used to produce the original report. The section is in Military Gulch, likely in the steep terrain south of 47.519° N, 115.758° W.

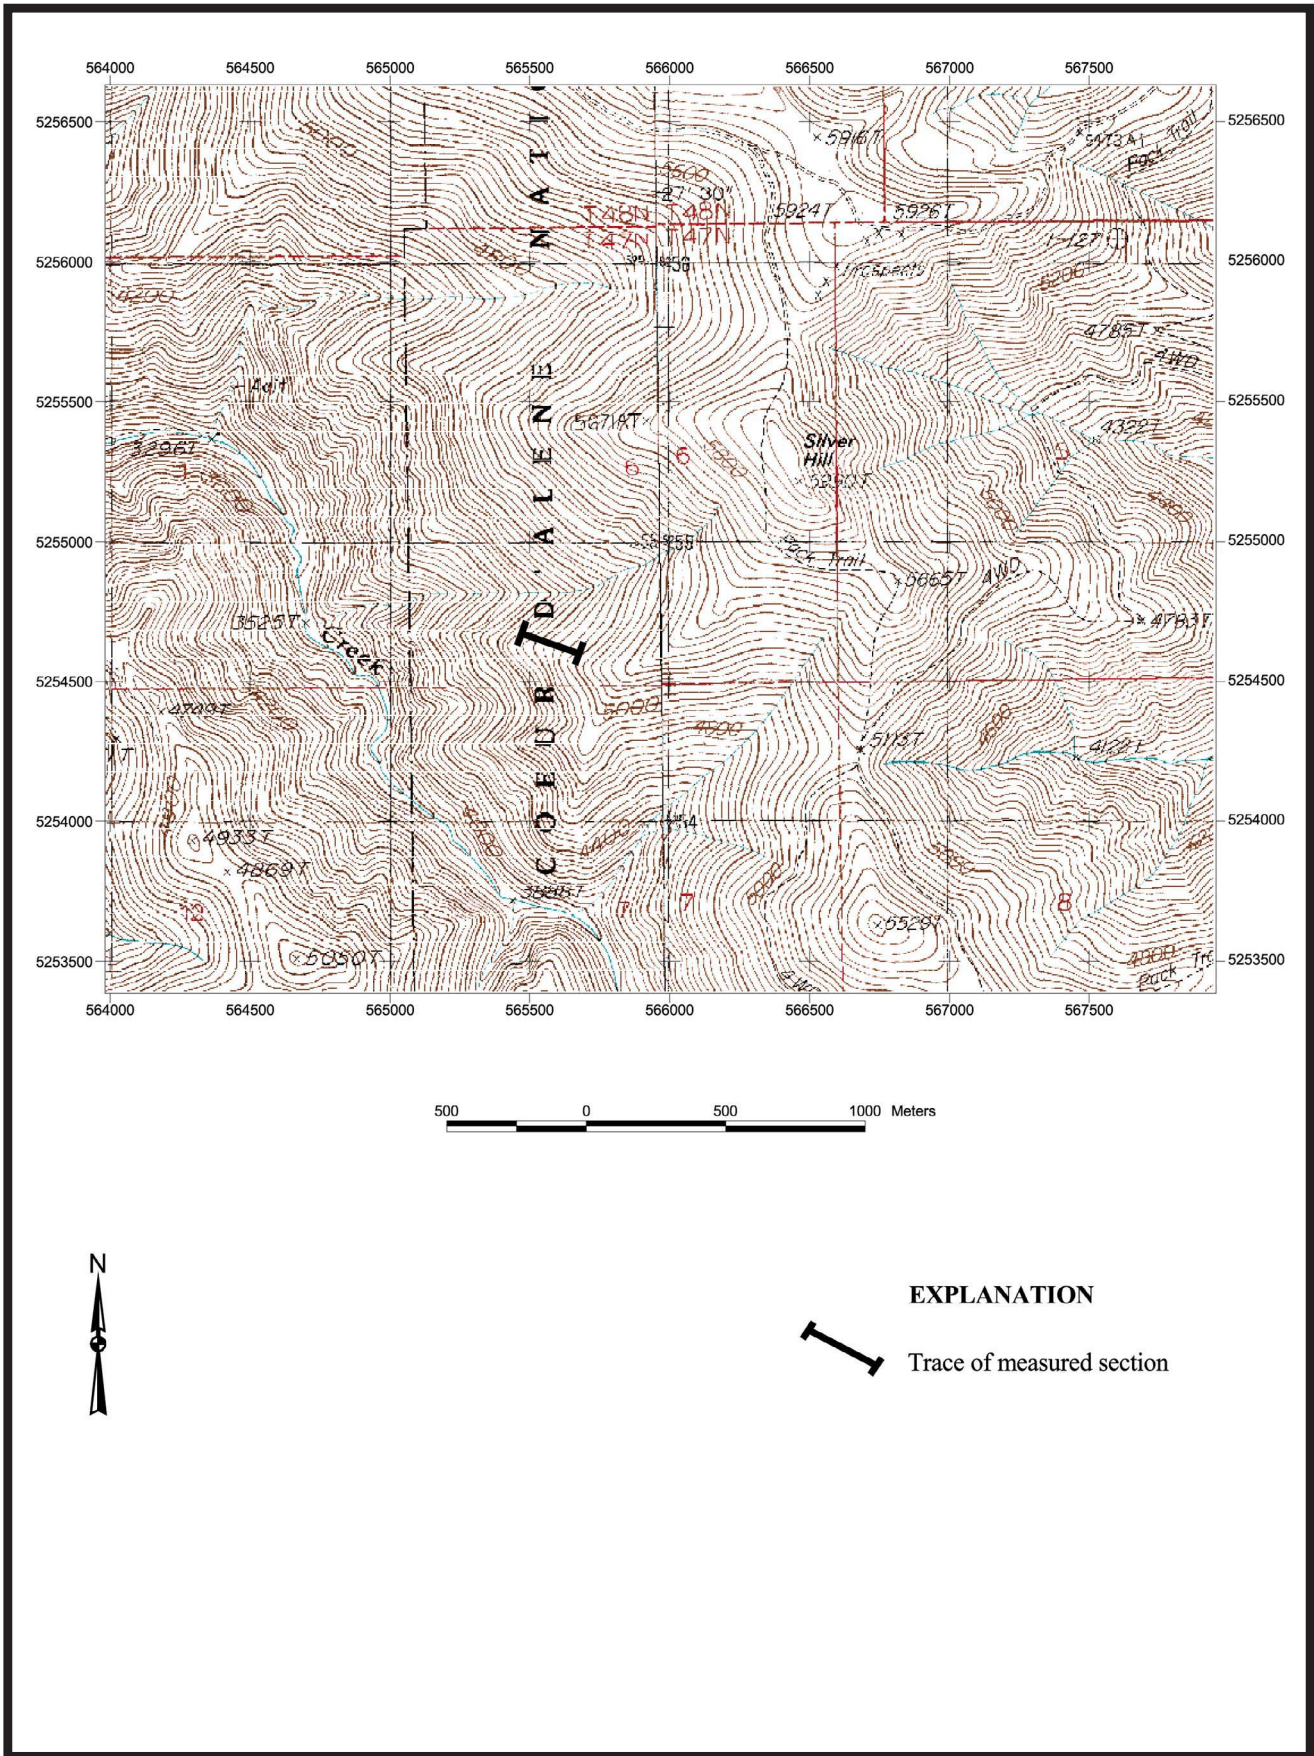

Figure C-6. Location map number S,H,a, depicting the location of the Silver Hill section. Base map from Masonia and Polaris Peak, ID quadrangles.

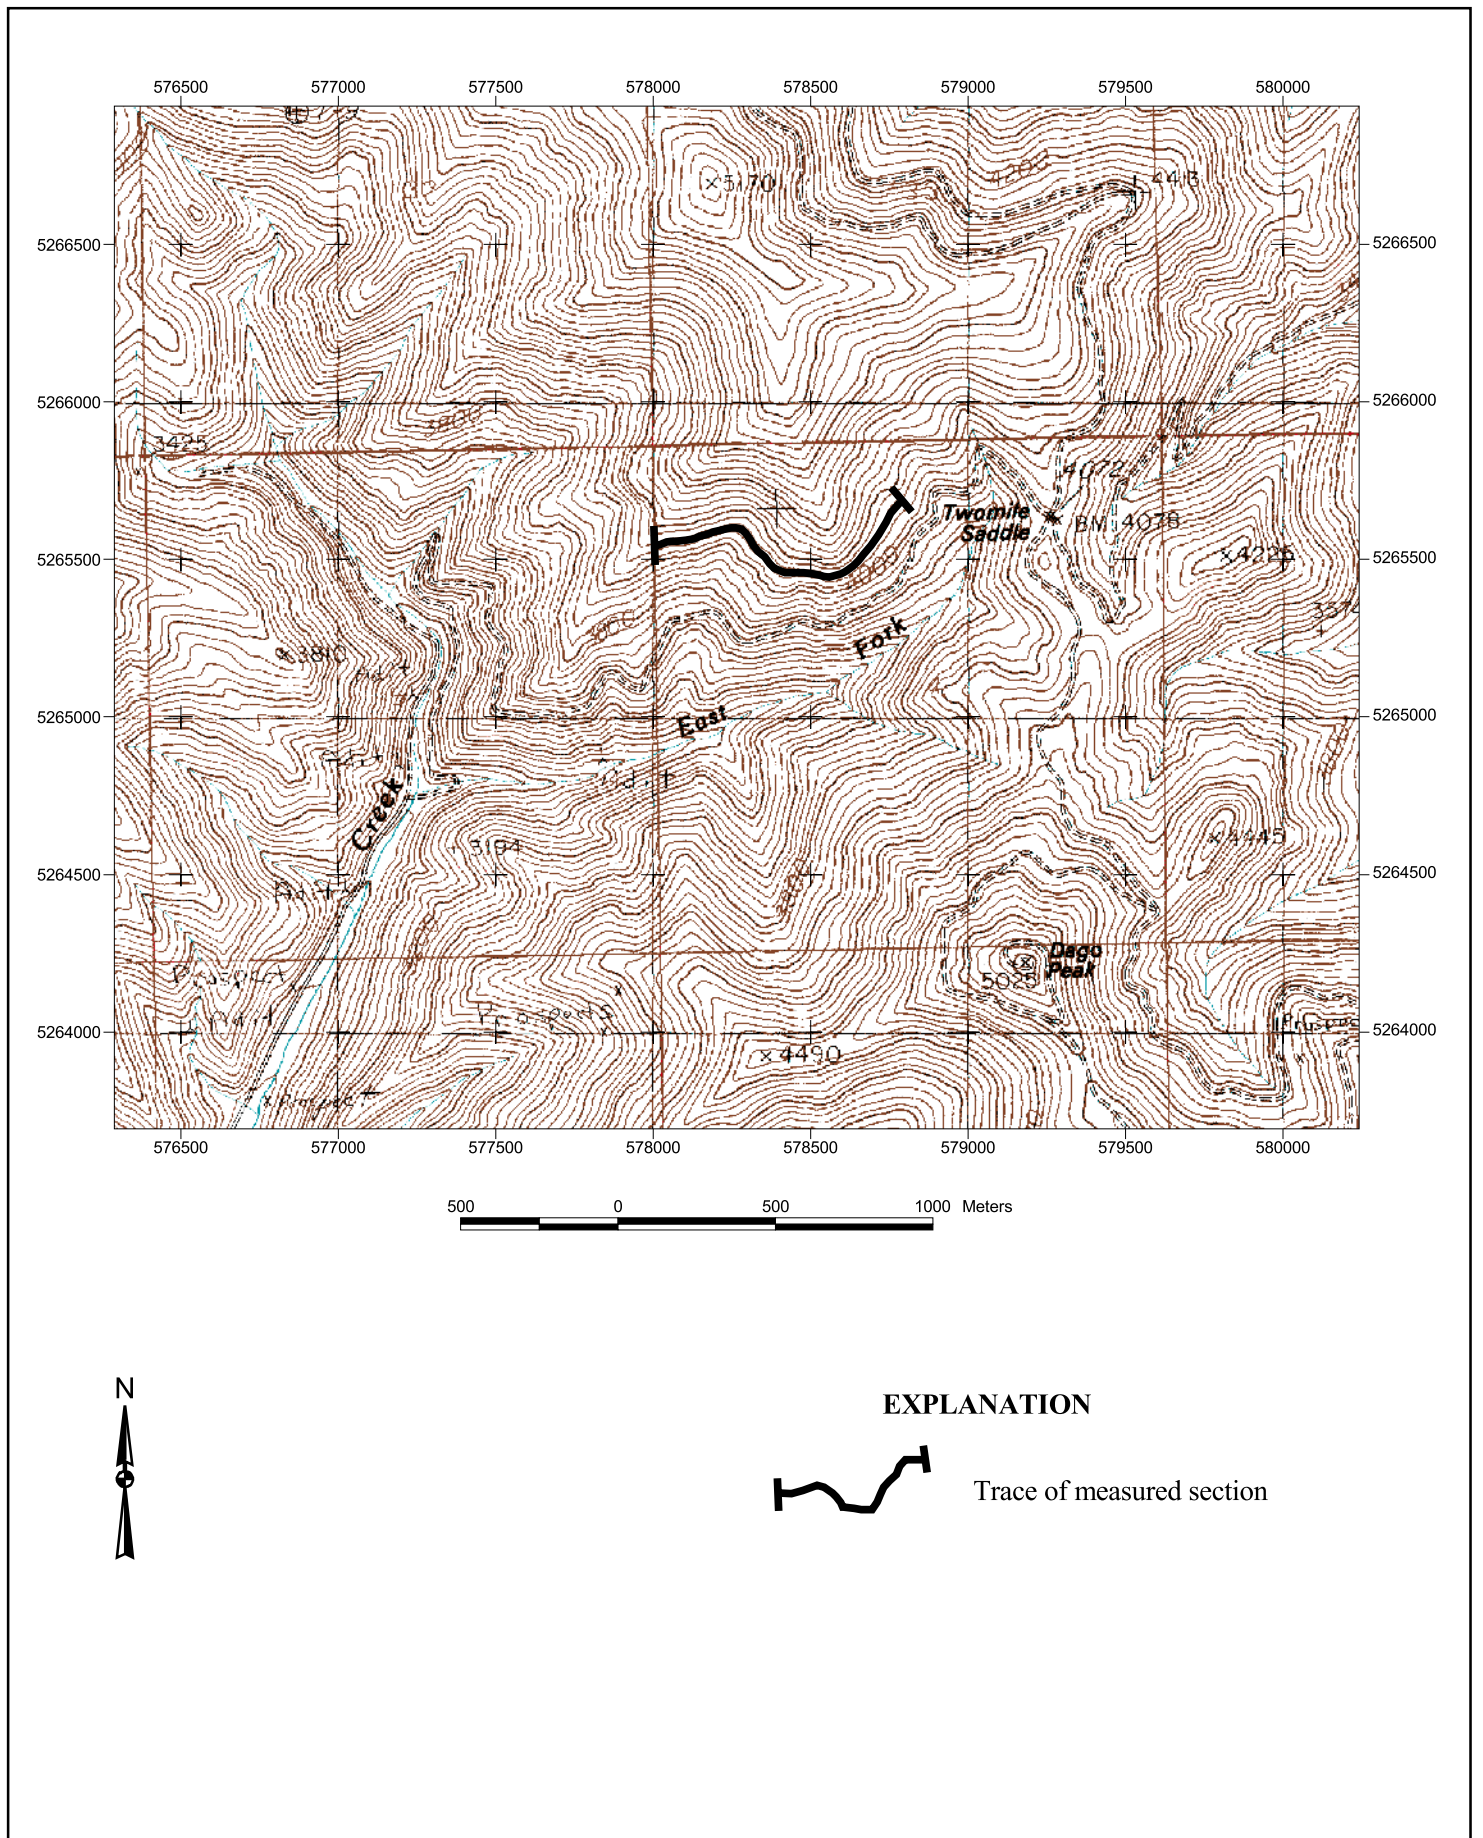

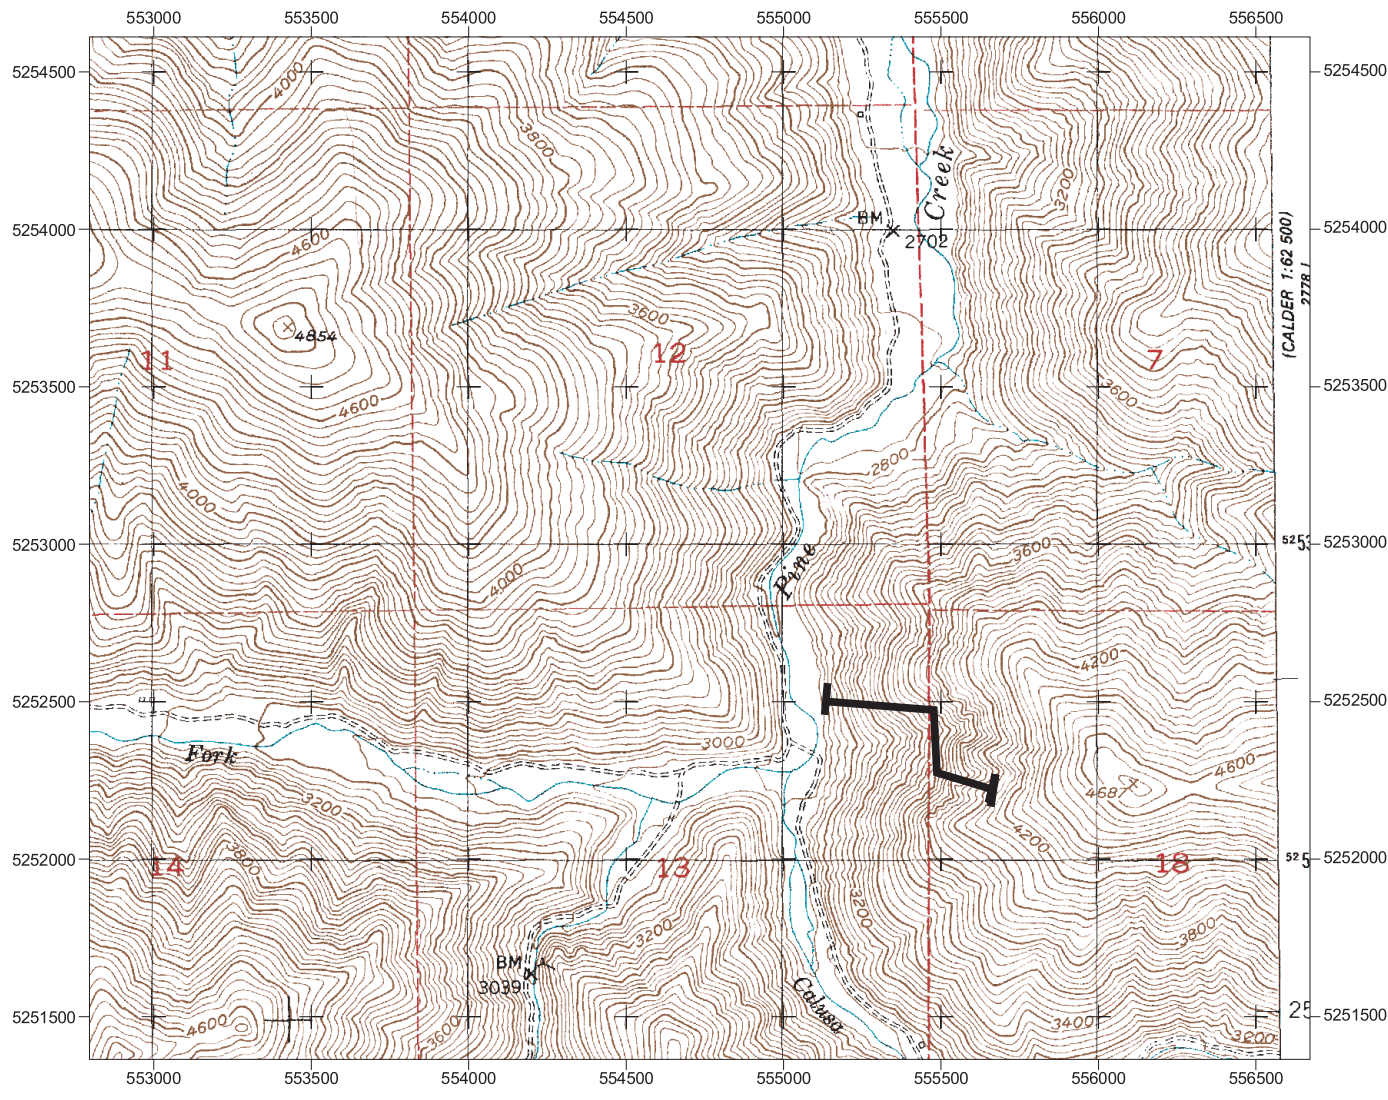

Figure C-7. Location map number T.M.C.a, portraying the location of the Two Mile Creek section. Base map from the Osburn, ID quadrangle.
