### Condition Indicators

- Designated Use Attainment
- Fish and Wildlife Consumption
- Aquatic Habitat
- Ambient Water Quality
- Dissolved Oxygen
- Total Pollutants
- Acidic Water Quality
- Nutrient Pollutants
- Wetland Loss Index

### Vulnerability Indicators

- Aquatic / Wildlife Species at Risk
- Pollutant Loads - Total Pollutants
- Pollutant Loads - Nutrient Pollutants
- Urban Runoff Potential
- Agricultural Runoff Potential
- Population Change
- Hydrologic Modification
- Erosion Pollution Index
- Atmospheric Deposition

### Condition / Vulnerability Indicator

- Better
- Less Serious
- More Serious
- No Data

### Overall Water Quality

- Better Quality - Low Vulnerability
- Better Quality - High Vulnerability
- Less Serious - Low Vulnerability
- Less Serious - High Vulnerability
- More Serious - Low Vulnerability
- More Serious - High Vulnerability
