

ERRATA FOR OPEN-FILE REPORT 02-348 (WEB ONLY)

February 2003

Figure 17B has been revised to reflect a correction in the data.

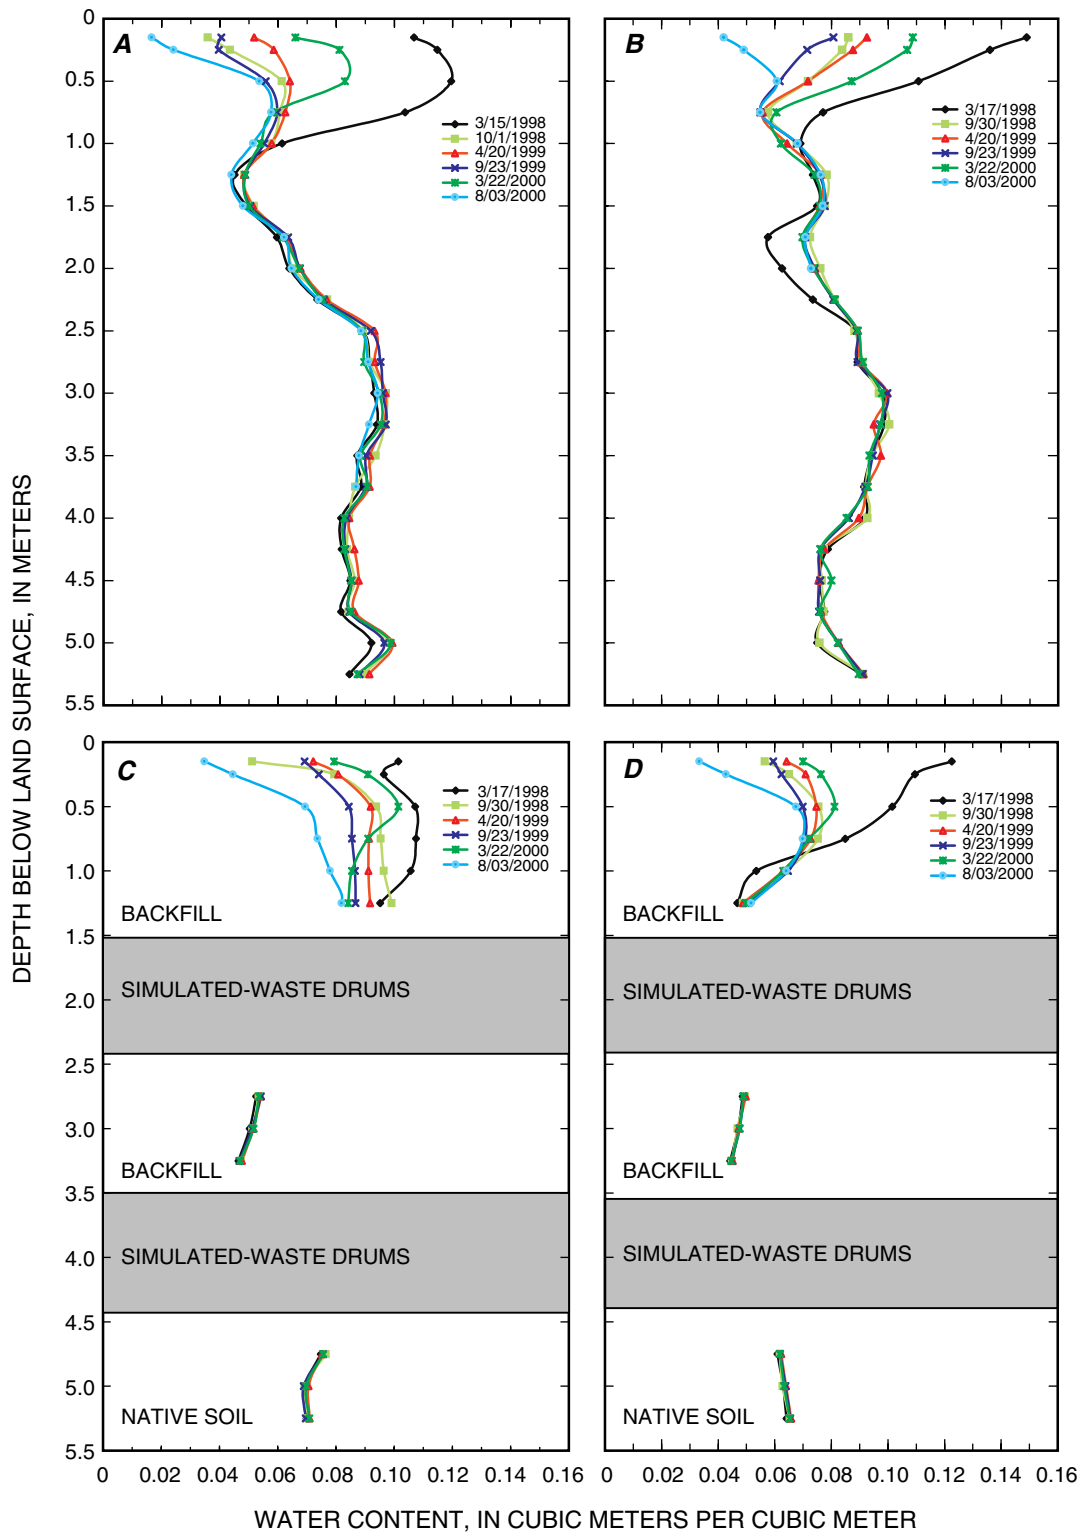

Figure 17. Water-content variations with depth in upper 5.5 meters of soil for selected dates at four experimental sites at Amargosa Desert Research Site near Beatty, Nev.: (A) vegetated, native-soil profile, (B) devegetated, native-soil profile, (C) non-vegetated, east trench, and (D) non-vegetated, west trench.

New Data in Appendix C as stated:

Table C1. Mean water-content data at depth at four experimental sites at the ADRS facility near Beatty, Nev., 1998-2000;

Tab B: Devegetated, native soil;

Columns: N and O
