References cited in Significant Deposit Database

Bell, R.N., 1912, Big Creek gold district, Idaho: Eng. Mining Jour., v. 94, no. 19, p. 891-892.

Robertson, Forbes, 1953, Geology and mineral deposits of the Zosell (Emery) mining district, Powell County, Montana: Montana Bureau of Mines and Geology Memoir 34, 29 p.

In addition, a number of common reference works, primarily periodical in nature, and often lacking specific author attributions, are cited in the known deposits file in abbreviated form, according to the following table:

Table:

- **ME** Mining Engineering, Society for Mining, Metallurgy, and Exploration, Littleton, CO (monthly).
- **Randol** Randol mining directory, Randol International Ltd., Golden, CO (biannual).
- **SEGN** Society of Economic Geologists Newsletter, Littleton, CO (quarterly).

**Corporate Annual Reports:** Annual reports prepared by companies for shareholders to report on annual business activity, future plans and financial status. Recent annual reports are available by request from individual companies or at company internet web sites. Older reports may be available at local public libraries or through a variety of subscriber business services.

**Annual Information Forms:** Annual information forms are filed annually with the Canadian Securities Administrators (CDA) and the Canadian Depository for Securities (CDS) by public companies marketing securities in Canada in compliance with Canadian securities regulations. Since 1997 these reports are available through the System for Electronic Document Analysis and Retrieval (SEDAR) web site operated by the CSA and CDS. Reports prior to 1997 may be available by request from individual companies.
SEC Forms: Reports filed annually by domestic public companies and foreign companies marketing securities in the United States with the Securities and Exchange Commission (SEC) in compliance with the 1934 Securities Exchange Act and Title 17, Code of Federal Regulations, Parts 200 to end. Reports filed with the SEC are available for public inspection at the SEC Library, New York City. Microfiche copies are available at many university libraries or may be purchased from Disclosure, Inc. The SEC’s EDGAR database of electronic copies of filings made since 1994 is accessible via the internet at url <http://www.sec.gov>.

Corporate Prospectus’: Reports provide information concerning the history of development, and current business and financial status of a company and are prepared subsequent to the issue of new securities for distribution to potential investors. Copies of recent prospectus are available at company web sites or by request from companies without web sites. Older prospectus may be available from subscriber investment business services or by request from the company. These reports are also available for Canadian corporations through the SEDAR web site since 1997 and for US corporations through the EDGAR web site for the previous 10-year period.

Montana Department of Environmental Quality Mining District Historic Narratives: Narratives summarize the general mining history of a mining district and for prominent mines within a district. Narrative histories for all mining districts in Montana are available at the Department of Environmental Quality (DEQ) web site (http://deq.state.mt.us) by searching on the district name.

U.S. Bureau of Mines production data: Mineral production reported by individual operators to the U.S. Geological Survey from 1901 to 1924, the U.S. Bureau of Mines from 1925 to 1995, and the U.S. Geological Survey from 1996 to present. Pursuant to Public Law 96-479, these data have been aggregated over time and over several operators so as not to disclose the production of any individual operator.
