

Figure 4. Map showing the backscatter intensity derived from the multibeam data. The backscatter intensity is presented here as an 8-bit gray-scale image with high-backscatter values shown as white and light gray and low-backscatter values shown as dark gray and black.

Sheet 2.—Backscatter intensity draped over sea floor topography in shaded relief view, with topographic contours.

SEA FLOOR TOPOGRAPHY AND BACKSCATTER INTENSITY OF THE HUDSON CANYON REGION OFFSHORE OF NEW YORK AND NEW JERSEY
