Publications of the Volcano Hazards Program 2003

By Manuel Nathenson

2005

Open-File Report 2005-1184

U.S. Department of the Interior
U.S. Geological Survey
The Volcano Hazards Program of the U.S. Geological Survey (USGS) is part of the Geologic Hazards Assessments subactivity as funded by Congressional appropriation. Investigations are carried out in the Geology and Hydrology Disciplines of the USGS and with cooperators at the Alaska Division of Geological and Geophysical Surveys, University of Alaska Fairbanks Geophysical Institute, University of Hawai‘i Hilo, University of Utah, and University of Washington Geophysics Program. This report lists publications from all these institutions.

This report contains only published papers and maps; numerous abstracts produced for presentations at scientific meetings have not been included. Publications are included based on date of publication with no attempt to assign them to Fiscal Year.
Volcano Hazards Bibliography 2003

Matheus, Paul, Begét, James, Mason, Owen, and Gelvin-Reymiller, Carol, 2003, Late Pliocene to Late Pleistocene environments preserved at the Palisades Site, central Yukon River, Alaska: Quaternary Research, v. 60, p. 33-43.

Tagami, Takahiro, Nishimitsu, Yoshimoto, and Sherrod, D. R., 2003, Rejuvenated-stage volcanism after 0.6-m.y. quiescence at West Maui volcano, Hawaii: new evidence from K-Ar ages and chemistry of Lahaina Volcanics: Journal of Volcanology and Geothermal Research, v. 120, p. 207-214.
