

Publications of the Volcano Hazards Program 2004

By Manuel Nathenson

2006

Open-File Report 2006-1102

**U.S. Department of the Interior
U.S. Geological Survey**

The Volcano Hazards Program of the U.S. Geological Survey (USGS) is part of the Geologic Hazards Assessments subactivity as funded by Congressional appropriation. Investigations are carried out in the Geology and Hydrology Disciplines of the USGS and with cooperators at the Alaska Division of Geological and Geophysical Surveys, University of Alaska Fairbanks Geophysical Institute, University of Hawaii Hilo, University of Utah, and University of Washington Geophysics Program. This report lists publications from all these institutions.

This report contains only published papers and maps; numerous abstracts produced for presentations at scientific meetings have not been included. Publications are included based on date of publication with no attempt to assign them to Fiscal Year.

Volcano Hazards Bibliography 2004

- Anderson, E. D., and Finn, C. A., 2004, Ground magnetic data from within the Long Valley caldera, California: A website for data distribution: U.S. Geological Survey Open-File Report 2004-1096, 3 p., data files, available at <http://pubs.usgs.gov/of/2004/1096/>
- Bailey, R. A., 2004, Eruptive history and chemical evolution of the precaldera and postcaldera basalt-dacite sequences, Long Valley, California: implications for magma sources, current seismic unrest, and future volcanism: U.S. Geological Survey Professional Paper 1692, 75 p.
- Bannister, S., Bryan, C. J., and Bibby, H. M., 2004, Shear wave velocity variation across the Taupo volcanic zone, New Zealand, from receiver function inversion: *Geophysical Journal International*, v. 159, p. 291-310.
- Battaglia, Jean, Thurber, C. H., Got, Jean-Luc, Rowe, C. A., and White, R. A., 2004, Precise relocation of earthquakes following the 15 June 1991 eruption of Mount Pinatubo (Philippines): *Journal of Geophysical Research*, v. 109, B07302, doi:10.1029/2003JB002959, 19 p.
