Figure 1. Map prepared for the completion of the San Bernardino County 1:24,000 quadrangle and U.S. Topographic Quadrangle for digital work in each area. All references to published mapping based on the reference section of the geologic report. All unpublished areas are internally consistent, vary in detail and degree of completeness, range from very simple to highly detailed. Unpublished maps prepared for the San Bernardino quadrangle are marked by white colored boundary shown in the explanation above.
