

B. Kalaimor-Kaisar Jurassic (115402)

Time scale: Harland and others (1989); Berggren and others (1995)

Figure 10 (continued). B. Events chart for the Kalaimor-Kaisar Total Petroleum System. This total petroleum system is characterized by Lower to Middle Jurassic source rocks, Jurassic to Cretaceous reservoir rocks, and Jurassic to Cretaceous mudstone seals. Petroleum generation, migration, and accumulation, and trap development occurred in Paleogene to Neogene time.
