

**Table 1. Northern Afghanistan assessment results for undiscovered petroleum resources (reserves not included).**

[MMB, million barrels. BCF, billion cubic feet. Results shown are fully risked estimates. For gas fields, all liquids are included under the natural F95 denotes a 95 percent chance of at least the amount tabulated. Other fractiles are defined similarly. Fractiles are additive under the correlation. TPS, total petroleum system. AU, assessment unit. Gray shading indicates not applicable]

Total Petroleum Systems (TPS) and Assessment Units (AU)	Field Type	Oil (MMB)				Total Undiscovered Resources Gas (BCF)				NGL (MMB)
