

Bases from U.S. Geological Survey, 1971 (East Providence) and 1955 (Bristol). Maps were scanned, processed, georeferenced, rectified, and cropped by the Massachusetts Geological Survey.

East Providence geology mapped by B.D. Stone in 1982 (unpublished). Distribution of bedrock outcrops from Williams and Willey (1973), Lyons (1977), and Stone, 1982 (unpublished). Bristol geology reproduced from Smith (1955). Some postglacial units mapped using 2005 orthophoto images.

### Surficial Geologic Map of the East Providence Quadrangle with part of the Bristol Quadrangle, Massachusetts
