

Base from U.S. Geological Survey, 1971. Map was scanned, processed, georeferenced, rectified, and cropped by the Massachusetts Geological Survey.

Geology mapped by J.R. Stone in 1975 (unpublished) and F.D. Larsen in 1980 (unpublished). Some outcrops in the northwestern part of the map area were mapped from the position of structure symbols shown by Springston (1990, pl. 2). Some outcrops and postglacial units were mapped using 2005 orthophoto images.

Surficial Geologic Map of the Royalston Quadrangle, Massachusetts
