

Appendix C – Photos of the survey area and equipment utilized

Figure C-1. The OhmMapper deployed along the bike trail.

Figure C-2. The OhmMapper deployed the Campus Commons Golf Course.

Figure C-3. The ATV used to deploy the OhmMapper.

Figure C-4. The OhmMapper deployed on the horse trail.

Figure C-5. The GEM-2 deployed along the levee toe road.

Figure C-6. The GEM-2 deployed along the bike trail.

Figure C-7. The DC resistivity cable deployed along the horse trail.

Figure C-8. The DC resistivity cable deployed along the bike trail.

Figure C-9. The DC resistivity SuperSting R8 console.

Figure C-10. The SuperSting deployed along the horse trail.

Figure C-11. Recording the locations of specific survey features.

Figure C-12. Recording the locations of cultural features.

Figure C-13. Recording the locations of cultural features.

Figure C-1. The OhmMapper deployed along the bike trail.

Figure C-2. The OhmMapper deployed the Campus Commons Golf Course.

Figure C-3. The ATV used to deploy the OhmMapper.

Figure C-4. The OhmMapper deployed on the horse trail.

Figure C-5. The GEM-2 deployed along the levee toe road.

Figure C-6. The GEM-2 deployed along the bike trail.

Figure C-7. The DC resistivity cable deployed along the horse trail.

Figure C-8. The DC resistivity cable deployed along the bike trail.
