

## QUALITATIVE OIL YIELDS BY TEST TUBE METHOD

Strat-cut samples from Chorney Oil Company's Lombard Canyon Unit well A-1 drilled in SW1/4SW1/4 (660 ft N/S and 660 ft E/W) of sec 33, T 27 N, R 108 W, Sublette County, Wyoming

Kelly bushing elevation - 6,873 feet.  
 All samples were for 10-foot intervals.

Depth	Test result <sup>1/</sup>
0-110	no oil
120-160	no oil
170-200	no oil
200-290	assay
300-370	assay
370-380	c
380-390	b
390-410	no oil
410-420	c
420-490	b
490-500	c
500-510	b
510-520	c
520-530	b
530-540	assay
540-550	c
550-570	b
570-580	c
580-600	no oil
600-610	b
610-620	trace
620-690	b
700-720	b
720-730	c
730-750	b
750-760	c
770-780	c
780-790	assay
790-870	c
870-880	trace
880-890	b
900-950	no oil

<sup>1/</sup> b - less than 1.0 gallon of oil per ton, c - 1.0 to 3.0 gallons per ton, assay - more than 3.0 gallons per ton.
