

Qualitative Oil Yields by Test Tube Method

Drill-cutting samples from Husky Oil Company's Federal Well 7-6 drill in SW1/4NE1/4 (3,301 FNL, 1,818 FEL, irregular section) of sec 6, T 22 N, R 105 W, Sweetwater County, Wyoming

Surface elevation 6,967 feet
Samples too small for Fischer assay
All samples were for 30-foot intervals

Depth	Test result ^{1/}
970-1060	c
1090-1120	c
1130-1160	b
1160-1190	c
1190-1220	Trace
1220-1250	b
1250-1310	c
1310-1370	Assay
1370-1400	Trace
1400-1490	No oil
1490-1520	Trace
1520-1610	No oil

^{1/} "b"--less than 1 gallon oil per ton, "c"--1-3 gallons of oil per ton, assay--more than 3 gallons of oil per ton.

Drill cutting samples received September 30, 1974, assays made on air-dried samples
