

Figure 2-1. Map of selected wells in the Pinedale field.

Locations of the 30 wells that were studied are shown in figure 2-1. Production plots for 12 of these 30 wells are shown in figures 2-6 through 2-17. Gas, water, and oil daily production rates are computed at times indicated by the two vertical lines in the production plots. Gas and water production at the first sample time is summarized in figure 2-2, with low water-gas ratio wells shown in yellow; gas and oil production at the first sample time is summarized in figure 2-3. Changes in water and gas production over 5-year intervals are shown in figures 2-4 and 2-5. [mcf, thousand standard cubic feet; mmcf, million standard cubic feet; bbl, barrels; F, hydraulically fractured; A, acidized; N, nitrogen injected]
