

SUGGESTIONS FOR VIEWING THE MODEL

- 1. View the model without stops a time or two.**
- 2. View the model with periodic stops while reading the written summary of the major features for each time stage of the model on the USGS CD or the U.S. Geological Survey Web site.**
- 3. For more detailed information, look at the detailed time-stage figures and text for the model in chapter 9 of the companion book on the metallogensis and tectonics of Northeast Asia. The book is also available on the CD and the Web site.**
