

YSI 6920

The image shows a complex underwater scientific instrument assembly. A large, cylindrical orange component is mounted on a metal frame. A white label 'YSI 6920' points to a specific part of this assembly. Below it, a white label 'ISUS' points to a large, dark, cylindrical component with a ribbed surface. To the right, a white label 'sensor guard/sensors' has two arrows pointing to a vertical metal structure. The entire assembly is positioned above a wooden platform. The background is dark and murky, suggesting an underwater environment. A timestamp '08/05/2010 15:47' is visible in the bottom right corner.
