

Appendix 3. Hydrograph for groundwater monitoring well GWM 7 modified from Danish Committee for Aid to Afghan Refugees (2011).

GWM_ID	7	Well type	Latitude	33.16115
District	Qara Bagh		Longitude	68.09195
Place	Walikay		Organisation in charge of the measurement	
Method	manual (with modified well)		DACAAR	

EXPLANATION

+++++ depth to water (m) below ground surface – right vertical axis
 _____ groundwater specific conductance (µS/cm) – left vertical axis

The horizontal axis on the hydrograph is the date given as week number and year (for example, 19 '05 is week number 19 in 2005). The left vertical axis is the groundwater specific conductance in microsiemens per centimeter (µS/cm) and the right vertical is the depth to water in meters (m) below ground surface (bgs).
