[Abundances indicate the percentage of the total benthic foraminiferal fauna or absent (-)]

# Distribution of Benthic Foraminifers in the Long Beach Wester School Core Site and Monitoring Well, Long Beach, California

By

Kristin McDougall, John Hillhouse, Charles Powell, II,  
Shannon Mahan, Elmira Wan,  
and Andrei M. Sarna-Wojcicki  
2012

Any use of trade, product, or firm names in this publication is for descriptive purposes only and does not imply endorsement by the U.S. Government

This map was printed on an electronic plotter directly from digital files. Dimensional calibration may vary between electronic plotters and between X and Y directions on the same plotter, and paper may change size due to atmospheric conditions; therefore, scale and proportions may not be true on plots of this map.
