

## F 1063 – Eastern border area

Well F 1063 “AZ 19 (PP 440)” is located in the eastern part of the Azraq groundwater basin, close to Jordan’s eastern border. The fit linear trend is  $+164 \mu\text{S}/\text{cm}/\text{yr}$  ( $R^2=0.58$ ). The last EC measured was  $4,680 \mu\text{S}/\text{cm}$  in 2006. The available data are widely spaced in time. The 2 low values (less than  $1,000 \mu\text{S}/\text{cm}$ ) may reflect outliers. Removing these outliers would yield a somewhat lower trend.
