Publications of the Volcano Hazards Program 2011

By Manuel Nathenson

The Volcano Hazards Program of the U.S. Geological Survey (USGS) is part of the Geologic Hazards Assessments subactivity, as funded by Congressional appropriation. Investigations are carried out by the USGS and with cooperators at the Alaska Division of Geological and Geophysical Surveys, University of Alaska Fairbanks Geophysical Institute, University of Hawaii Manoa and Hilo, University of Utah, and University of Washington Geophysics Program. This report lists publications from all these institutions.

Only published papers and maps are included here; abstracts presented at scientific meetings are omitted. Publication dates are based on year of issue, with no attempt to assign them to fiscal year.

Volcano Hazards Program Publications 2011

- Adleman, J.N., 2010, Alaska volcanoes guidebook for teachers: U.S. Geological Survey General Information Product 99, 348 p. (Available at <http://pubs.usgs.gov/gip/99/>.)
- Alaska Volcano Observatory, Alaska Division of Homeland Security and Emergency Management, Federal Aviation Administration, National Weather Service, U.S. Air Force Weather Agency, U.S. Coast Guard, and Alaska Department of Environmental Conservation, 2011, Alaska interagency operating plan for volcanic ash episodes, 60 p. (Available at <http://www.avo.alaska.edu/downloads/classresults.php?citid=3996>.)
- Audetat, A., Dolejs, D., and Lowenstern, J.B., 2011, Molybdenite saturation in silicic magmas—Occurrence and petrological implications: *Journal of Petrology*, v. 52, p. 891–904.
