Open File Report 2014-1002
Sheet 3 of 4
Pamphlet accompanies map

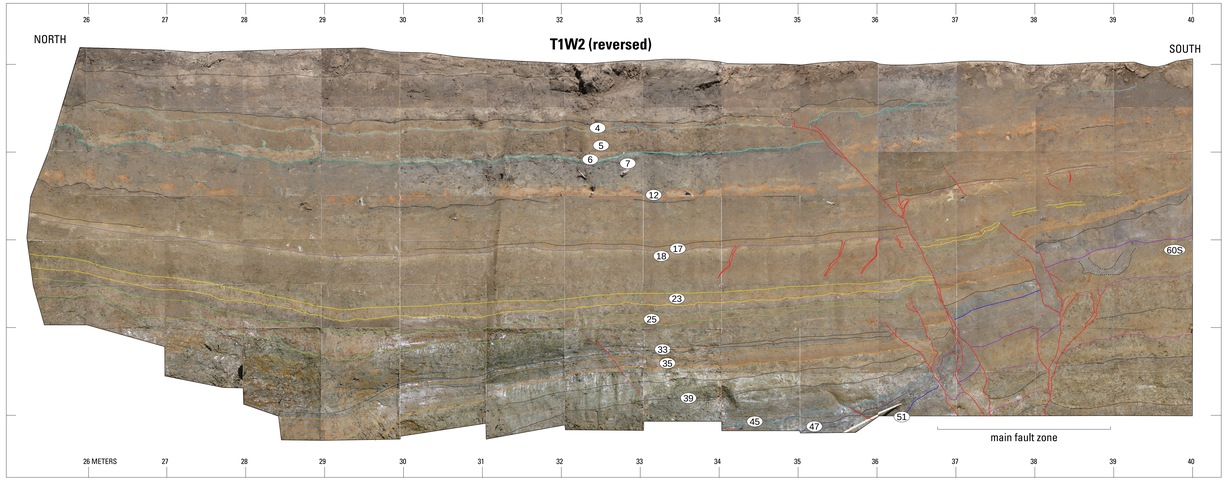

EXPLANATION

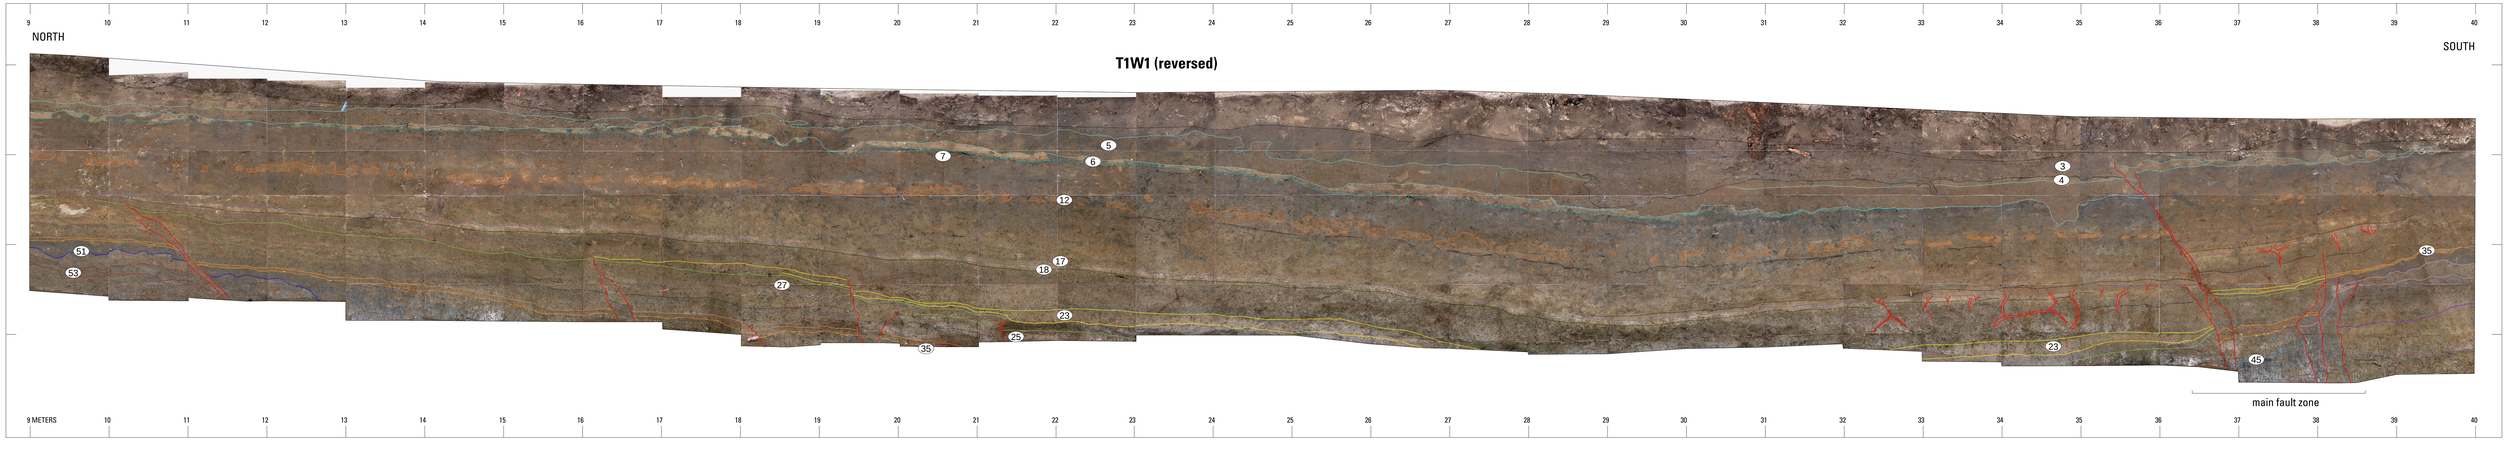

Photomosaics and line work for the west wall of trench 1, cuts 1 and 2 (white lines on location map at left). All photomosaics are shown as exposed in sloping trench wall; cuts T1W1 and T1W2 have ~12% vertical exaggeration. Grid provides scale for each wall in meters; horizontal scale is consistent for all exposures.

④ **Stratigraphic unit number**

Contact–Key horizons are shown with consistent colors; other units shown in thin black or grey; dashed where contact is diffuse or gradational; dotted lines projected from proximal cut

Fault

Photomosaics and Event Evidence from the Frazier Mountain Paleoseismic Site, Trench 1, Cuts 1–4, San Andreas Fault, Southern California (2007–2009)

By
Katherine M. Scharer,[1] Tom E. Fumal,[1] Ray J. Weldon, II,[2] and Ashley R. Streig[2]
