

Geology mapped by R.E. Wells, assisted by R. Miyake, B. Cope, and T. Plake, 1978–1980. In part, compiled mapping by Snavely and others (1958), and modified mapping by Harrison (1956), Livingston (1966), Pease and Hoover (1957), and Rau (1952). See Index Map of Data Sources.

GIS database and digital cartography by M. Sawlin, 2008, with contributions by S. Foreman, 2006

This map is preliminary and has not been reviewed for conformity with U.S. Geological Survey editorial standards and stratigraphic nomenclature

Manuscript accepted for publication March 24, 2014

Any use of trade, product, or firm names in this publication is for descriptive purposes only and does not imply endorsement by the U.S. Government.

This map was printed on an electronic platter directly from digital files. Dimensional calibration may vary between electronic plotters because of X and Y distortions on the same platter, and paper may change size due to atmospheric conditions; therefore, scale and proportions may not reflect actual conditions.
