

This file explains the contents of the folder containing files for Chapter 3—Synthesis of Key Findings for the Wyoming Basin Rapid Ecoregional Assessment.

There are two formats for the chapter material: the entire chapter in one file and 26 individual synopses provided as separate files.

1. The file “01_chapter3.pdf” contains ALL of Chapter 3 of the Wyoming Basin Rapid Ecoregional Assessment. The chapter synthesizes the assessment results, and it includes a two-page synopsis for each Change Agent, Ecological Community, and Species assessed, and for landscape intactness. Note that the synopses summarize information provided in individual chapters. Users may click on the 01_chapter3.pdf to view or download the entire chapter.
2. A pdf version of each two-page synopses (the file name includes the page numbers) organized into folders as listed below. Users may view or download individual two-page synopses of interest.
