Publications of the Volcano Hazards Program 2014

By Manuel Nathenson

The Volcano Hazards Program of the U.S. Geological Survey (USGS) is part of the Natural Hazards activity, as funded by Congressional appropriation. Investigations are carried out by the USGS and with cooperators at the Alaska Division of Geological and Geophysical Surveys, University of Alaska Fairbanks Geophysical Institute, University of Hawai‘i Mānoa and Hilo, University of Utah, and University of Washington Geophysics Program. This report lists publications from all of these institutions.

Only published papers and maps are included here; abstracts presented at scientific meetings are omitted. Publication dates are based on year of issue, with no attempt to assign them to a fiscal year.
Volcano Hazards Program Publications 2014

Bergfeld, Deborah, Lewicki, J.L., Evans, W.C., Hunt, A.G., Revesz, Kinga, and Huebner, Mark, 2014, Geochemical investigation of the hydrothermal system on Akutan Island,

Lin, Guoqing, Shearer, P.M., Matoza, R.S., Okubo, P.G., and Amelung, Falk, 2014, Three-dimensional seismic velocity structure of Mauna Loa and Kilauea volcanoes in

Patrick, M.R., and Delparte, Donna, 2014. Tracking dramatic changes at Hawai‘i’s only alpine lake: EOS Transactions of the American Geophysical Union, v. 95, p. 117–118.
