Lithologic correlation based on geophysical logs
Acoustic televiewer log
Gamma log, intensity increases to right
Coal bed interpreted from density log
Single-point resistance log, resistance increases to right
Density log, density increases to right
Optical televiewer log
Well nest or cluster, with identifier; screen interval identifier in italics
Screened or open interval

Section B_d-B'_d detail with geophysical log correlations, Valmont TCE Superfund Site, Luzerne County, Pennsylvania
