Conservation Reserve Enhancement Program FY«Reporting_Year» Annual Report

«CREP_Name»

The Conservation Reserve Enhancement Program (CREP) is a partnership between State agencies and the U.S. Department of Agriculture, Farm Service Agency. Through these partnerships, CREP provides financial incentives to farm landowners willing to voluntarily implement conservation measures on sensitive land in lieu of continued agricultural production. Conservation practices implemented under CREP (for example, stream buffers, conservation plantings, restored wetlands) contribute to improved water quality, reduced water losses, increased water storage, and increased habitat quantity and quality for a variety of wildlife species but are targeted towards specific State or nationally significant conservation concerns. Under the terms of CREP agreements, partners are required to submit annual reports that summarize progress towards meeting CREP agreement goals. This is the FY«Reporting_Year» report for the «CREP_Name» CREP.
