Data Management Planning Questionnaire for Program Coordinators and BAOs

The USGS Science Data Management Branch and the Community for Data Integration are seeking to better understand current practices and needs related to project planning and data management. We’d appreciate feedback based on your experiences as a Program Coordinator or Bureau Approving Official (BAO). Please complete the following survey. We estimate that the survey will take 10 to 20 minutes to complete. If you have any trouble with the form, please contact the survey administrators.

Section 1
Initial Questions

1. What is your role at the USGS?
   - Program Coordinator
   - Bureau Approving Official (BAO)
   - Other: __________________________

2. Do you require that new projects in your program have a Data Management Plan (DMP)?
   - Yes, all of them
   - Most of them
   - A few of them
   - DMP requirements are left to Center Director discretion.

3. As a BAO, do you review the DMP associated with a product that has been submitted for Bureau Approval?
   - Always
   - Sometimes
   - Never

Section 2
Thinking about Data Management Plans (DMPs) in general...

Data Management Plan definition from Survey Manual 502.6: “A data management plan will include standards and intended actions as appropriate to the project for acquiring, processing, analyzing, preserving, publishing/sharing, describing, and managing the quality of, backing up, and securing the data holdings.”

4. What do you think is the main value(s) of Data Management Plans (DMPs)?
   Select all that apply.
   - DMPs help project teams communicate information with project evaluators and data managers
   - DMPs help project teams communicate with project partners
   - DMPs help researchers learn about new data management practices and requirements
   - DMPs help researchers define how they will manage and track their data throughout their projects
   - DMPs help improve the quality of research and data products
DMPs help centers plan for resources (staff time and project funding) needed for managing project data
Other: ______________________

5. Have you found DMPs to be useful to your work?

- Very useful
- Somewhat useful
- Neutral
- Somewhat not useful
- Not useful at all

6. In what ways have DMPs been useful to your work?

7. In what ways could DMPs be MORE useful to your work?

8. Which of the following are challenges that your Center(s) / Program(s) faces with respect to creating and using DMPs?

Select all that apply.
- DMPs take too much time to create
- No one ever reads DMPs
- DMPs are of no use/benefit to my center(s)
- We already use another mechanism for data management planning (please document in 'Other')
- We don't have a formal process for data management planning
- The typical DMP questions/sections do not help me plan for my center's data management needs
- We don't have the right tools or templates for implementing DMPs at my center
- We don't have good example DMPs to follow
- We don't have a good way to track DMPs
- DMPs are too hard to maintain and become out-of-date quickly
- We don't face any challenges
- Other: ____________________________

9. Which one of the following is your Center(s) / Program(s) GREATEST challenge when creating and using DMPs?

- DMPs take too much time to create
- No one ever reads DMPs
- DMPs are of no use/benefit to my center(s)
- We already use another mechanism for data management planning
- We don't have a formal process for data management planning
- The typical DMP questions/sections do not help me plan for my center's data management needs
- We don't have the right tools or templates for implementing DMPs at my center
- We don't have good example DMPs to follow
- We don't have a good way to track DMPs
- DMPs are too hard to maintain and become out-of-date quickly
- We don’t face any challenges
- Other: _________________________
10. For each of the following audiences, please indicate how useful you think project DMPs are.

<table>
<thead>
<tr>
<th>Audience</th>
<th>Very useful</th>
<th>Somewhat useful</th>
<th>Neutral</th>
<th>Somewhat not useful</th>
<th>Not useful at all</th>
</tr>
</thead>
<tbody>
<tr>
<td>Project approvers / evaluators (for example, supervisors, Center Director)</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Project team</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Data manager(s)</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Information technologist(s)</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Bureau Approving Official</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Stakeholders / customers</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

11. For each of the following types of information in a project DMP, please indicate how useful they are to you.

<table>
<thead>
<tr>
<th>Information Type</th>
<th>Very useful</th>
<th>Somewhat useful</th>
<th>Neutral</th>
<th>Somewhat not useful</th>
<th>Not useful at all</th>
</tr>
</thead>
<tbody>
<tr>
<td>Where the data will be released/published</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Where the data will be stored and backed up</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Information about Data/Model/Code Inputs or Sources</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Information about Data/Model/Code Outputs or Products</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Information about whether data products will be static or versioned over time</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Roles and responsibilities (e.g., publishing, creating metadata, backup and security)</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Expectations for release and management of data collected or funded by a third party</td>

</tr>
<tr>
<td>Who will be funding data acquisition and processing activities</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Plans for data preservation and disposition</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
12. Ideally, where do you think USGS DMPs should be stored and accessed?
- Publicly available as a USGS publication, white paper, or webpage, etc.
- Publicly available as part of a USGS data release
- Internally available in a shared folder, drive, or database for each Center
- Internally available in a shared folder, drive, or database for the USGS
- Available by request from a team member’s computer

Section 3
Final Questions and Demographics

13. Which of the following resources are you familiar with related to DMPs?
Select all that apply.
- My center’s shared resources (e.g., website, SharePoint, etc.)
- My center/programs' DMP template
- DMPTool.org
- I am not familiar with any DMP resources
- Other: ____________________________________________

14. With what mission area are you affiliated?
Select from the dropdown.
Select your answer

15. Are you aware of any projects that have experienced challenges or delays with respect to receiving approval to release data or publications that may have been alleviated by earlier planning and documentation? If yes, please describe the situation below.

16. Are you willing to talk to someone on the USGS Science Data Management team about your experience with DMPs and project planning?
- Yes
- No
- Maybe

17. Would you like to receive the final report and analyses from this survey?
- Yes
- No

18. Is there anything else related to DMPs that you would like to tell us?

--- END ---
