

EXPLANATION

SURFICIAL ROCKS

QUATERNARY

SEDIMENTARY ROCKS

TERTIARY

JURASSIC (UPPER JURASSIC)

JURASSIC (?)

CARBONIFEROUS (MISSISSIPPIAN)

IGNEOUS ROCKS

TERTIARY

PROBABLY CHIEFLY LATE JURASSIC OR EARLY CRETACEOUS

CARBONIFEROUS, TRIASSIC (?), AND JURASSIC

KNOWN PRODUCTIVE FORMATIONS

POSITION OF MAPS

WOMER LODGE DISTRICT

NORTHERN SOUTHERN

Base from U. S. Geological Survey map of the Mother Lode district, sections 1 and 2

GEOLOGIC MAP OF THE MOTHER LODGE BELT, CALIFORNIA

Reprinted from Folio 63, Geologic Atlas of the United States, with slight modification

George F. Becker, Geologist in charge

Geology by F. L. Ransome

Surveyed in 1898
