

- EXPLANATION
- Coarse-grained plagioclase-perthite-quartz-muscovite pegmatite, undivided
 - Sheet-mica concentration
 - Quartz-mica schist
 - Contact, dashed where approximately located
 - Approximate limits of rich sheet-mica concentration
 - Contours on hanging wall of pegmatite
 - Strike and dip of foliation
 - Rim of pit
 - Collar of diamond-drill hole, by U. S. Bureau of Mines
 - Dump

Mapped by W.R. Griffiths, October 1944, March 1945

GEOLOGIC MAPS AND SECTIONS OF THE BIG BESS MINE, GASTON COUNTY, NORTH CAROLINA
