Jp	Triassic
Jt	Triassic
Pa	Permian
Pt	Permian
Mm	Mississippian
Mm	Mississippian

- Contact
- Dashed where approximately located
- Normal fault
- U, upthrown side; D, downthrown side; dotted where concealed or inferred
- Thrust fault
- T, overriding block; dashed where approximately located, dotted where concealed or inferred
- Anticline
- Showing direction of plunge; dashed where approximately located, dotted where concealed or inferred
- Syncline
- Dashed where approximately located, dotted where concealed or inferred
- Strike and dip of beds
- Strike and dip of overturned beds
- Inferred position of fault trace on structure-contour horizon
- Inferred position of anticlinal axis on structure-contour horizon
- Inferred position of synclinal axis on structure-contour horizon
- Structure contours on top of Gypsum Spring formation
- Contour interval 100 feet, datum is mean sea level
- Producing oil well
- Number indicates total depth, in feet
- Dry hole
- Number indicates total depth, in feet

GEOLOGIC MAP AND SECTIONS OF A PART OF THE DUBOIS ANTICLINAL COMPLEX IN T. 42 N., R. 107 W., FREMONT COUNTY, WYOMING

500 0 2500 Feet
