

- EXPLANATION
- General area in which only the thick-bedded facies occurs
 - General area in which the thick-bedded facies overlies the thin-bedded facies
 - General area in which only the thin-bedded facies occurs
 - Pinchout line of facies of the Trommald formation
Dashed where approximately located
 - Line of equal thickness of the Trommald formation
Dashed where approximately located; queried where inferred
 - Point where thickness was determined showing thickness, in feet
 - Point where approximate thickness was determined; range in thickness, in feet

THE NORTH RANGE, CUYUNA DISTRICT, MINNESOTA, SHOWING DISTRIBUTION OF THE THIN-BEDDED AND THICK-BEDDED FACIES OF THE TROMMALD FORMATION AND THE TOTAL THICKNESS OF THE TROMMALD FORMATION
