

A-A', THROUGH MAIN MANTO

Geology by J. R. Cooper, T. W. Amsden,
and F. W. Farwell, 1945

C-C', THROUGH SHAFT

Geology by J. R. Cooper, T. W. Amsden,
F. W. Farwell, and C. T. Wrucke, 1945-54

B-B', THROUGH NORTHEAST WINZE

Geology by J. R. Cooper, T. W. Amsden,
F. W. Farwell, and C. T. Wrucke, 1945-54

EXPLANATION

	Marble, rarely with quartzite, qt		Alluvium		Contact
	Dolomite marble		Escabrosa limestone		Dashed where inferred
	White talcite		Martin formation, units 1-7		Dashed where projected into section
	Garnetite		Abrijo formation Upper member, units 6-10		Drill hole
	Hornfels		Abrijo formation Middle member, units 2-5		Drill hole projected into section
			Abrijo formation Lower member, unit 1		Lines of sections shown on plates 8 and 9
			Mineralized ground		

Where possible, stratigraphic units distinguished as follows:

CROSS SECTIONS THROUGH THE REPUBLIC MINE, COCHISE COUNTY, ARIZONA
