

(200)  
9/13  
no. 459

EXPLANATION

- Alluvium
- Volcanic rocks
- Intrusive rocks
- Antler block
- Golconda block
- Dewitt block
- Valmy block
- Scott Canyon block

- Contact  
Dashed where approximately located
- Normal or steep reverse fault, showing dip  
Dashed where approximately located; dotted where concealed. U, upthrown side; D, downthrown side
- Permian thrust fault, showing dip
- Mississippian thrust fault, showing dip
- Overturned thrust fault  
Saw teeth on upper plates. Faults dashed where approximately located; dotted where concealed
- Anticline  
Showing trace of axial plane. Dashed where approximately located; short dashed where inferred or uncertain
- Syncline  
Showing trace of axial plane. Dashed where approximately located; short dashed where inferred or uncertain
- Overturned syncline  
Showing trace of axial plane, plunge of axis, and direction of dip limbs. Dashed where approximately located; short dashed where inferred or uncertain
