

- EXPLANATION**
- Tu  
Tertiary rocks undifferentiated; older and younger than Eocene
  - Tb  
Bridger Formation
  - Tgu  
Green River Formation undifferentiated; members below and above the Wilkins Peak Member; includes tongues of Wasatch Formation
  - Tgw  
Wilkins Peak Member of Green River Formation
  - Tw  
Wasatch Formation
  - pT  
Pre-Tertiary rocks undifferentiated
- Contact  
Dashed where approximately located
- Fault  
Dashed where approximately located

Geology generalized from Bradley (1964b). Outcrops of the Wilkins Peak Member south of the Rock Springs uplift and along the west side of the Washakie Basin, hitherto unpublished, were kindly furnished by Henry W. Rohler, formerly of Rock Springs, Wyo., now of the U.S. Geological Survey. The eastern subsurface limit of the Wilkins Peak Member was inferred by W. H. Bradley

**GENERALIZED GEOLOGIC MAP SHOWING THE DISTRIBUTION OF THE MEMBERS OF THE GREEN RIVER FORMATION IN SOUTHWESTERN WYOMING AND ADJACENT PARTS OF COLORADO AND UTAH**
