

¹ A review of *Linoproductus nodosus* by Mackenzie Gordon, Jr., written commun., 1965 indicates that these are not *L. nodosus* as this species is now recognized.

EXPLANATION

- Range of species which is restricted to the Amstden Group
- Range of species which is restricted to the Big Snowy Group

Modified from Easton (1962, table 5); localities for these fossil collections are described in detail by Easton on p. 109-114
