

Base from U.S. Geological Survey, Roads modified, 1970
Mapped, edited, and published by the Geological Survey
Control by USGS and USCGS
Topography by planetable surveys 1910, 1911, and 1913
Culture revised by National Park Service 1928, 1938, and 1955
Polyconic projection. North American datum, 10,000-foot grid based on Washington coordinate system, south zone. To place on 1927 North American datum move projection lines 115 feet north and 85 feet west
Culture revised in part and topography in south-west corner of map revised in part by U.S. Geological Survey, 1967
Glacier margins shown were compiled from aerial photographs by M. F. Meier and A. S. Post, at, and represent extent of ice during the period 1966-67; perennial snowfields and areas of stagnant glacier ice are shown, as well as active glaciers
Topographic contours in areas vacated by ice since 1913 are not shown

TOPOGRAPHIC MAP OF MOUNT RAINIER NATIONAL PARK, WASHINGTON
