

Base from U.S. Geological Survey, Roads modified, 1970
Mapped, edited, and published by the Geological Survey
Control by USGS and USC&GS
Topography by planetable surveys 1910, 1911,
and 1913
Culture revised by National Park Service 1928,
1938, and 1955
Polyconic projection, North American datum,
10,000-foot grid based on Washington coordinate
system, south zone. To place on 1927 North
American datum move projection lines 115 feet
north and 85 feet west
Culture revised in part and topography in south-
west corner of map revised in part by U.S.
Geological Survey, 1967
Glacier margins shown were compiled from aerial
photographs by M. F. Meier and A. S. Post, and
represent extent of ice during the period 1866-67;
perennial snowfields and areas of stagnant glacier
ice are shown, as well as active glaciers
Topographic contours in areas vacated by ice since
1913 are not shown

TOPOGRAPHIC MAP OF MOUNT RAINIER NATIONAL PARK, WASHINGTON
