

EXPLANATION

Outcrop section
Well section
Composite section constructed from outcrops, wells, or both, less than five miles apart
Generalized section constructed from scattered data in the surrounding area
Sinkhole section
Cave section
Composite section constructed from two or more sinkhole or cave sections
Limit of mapped interval
Dashed where control is poor; dotted where Pennsylvanian rocks have not been penetrated by drill

FAULTS

Post-Pennsylvanian fault
Shown only in Great Basin and west coast regions. Dashed in areas of poor control; queried where doubtful

Pennsylvanian fault
Fault associated with displacement or termination of isopachs; also closely related faults. Dashed in areas of poor control; queried where doubtful

Thrust fault
Sawtooth on upper plate

Lateral fault
Arrows show relative movement

Normal fault
U, upthrown side; D, downthrown side

Reverse fault
R, upthrown side

Area in vicinity of Pennsylvanian rocks where older rocks are exposed

Area in vicinity of Pennsylvanian rocks in which the Pennsylvanian, if ever present, has been masked or destroyed by igneous intrusion, metamorphism, or complex structural deformation

Area in vicinity of Pennsylvanian rocks in which Pennsylvanian rocks have not been penetrated by drill

Ouachita tectonic belt
Northern edge of shaded band indicates edge of tectonic belt; southern limits undetermined

Area where lithofacies is undetermined

Salt
More than 10 percent of rock

Volcanic rocks

Chert

Chemical components predominant

ls > a	ls > sh	ls > ss	ls > sh
ss > sh	ss > ls	ss > sh	ss > ls
sh > ss	sh > ls	sh > sh	sh > ls
a > ls	a > sh	a > ss	a > sh

Detrital components predominant

ss > ls	ss > sh	ss > ls	ss > sh
ls > ss	ls > sh	ls > ss	ls > sh
sh > ss	sh > ls	sh > ss	sh > ls
a > ss	a > sh	a > ls	a > sh

Abbreviations:
ls, Limestone and dolomite
sh, Sandstone (includes claystone and siltstone)
ss, Sandstone

Lithofacies symbols for sedimentary rocks

Line of section through Pennsylvanian rocks
Numbers correspond to control-point numbers on plate 1; number without control point indicates locality deleted for interval on this map but retained for one or more other intervals. Sections shown on plate 10A-F.

MAP SHOWING LITHOFACIES OF SUBINTERVAL A₁ OF PENNSYLVANIAN SYSTEM

NOTE
This is a standardized explanation for all Pennsylvanian lithofacies maps; some symbols may not appear on this map.
