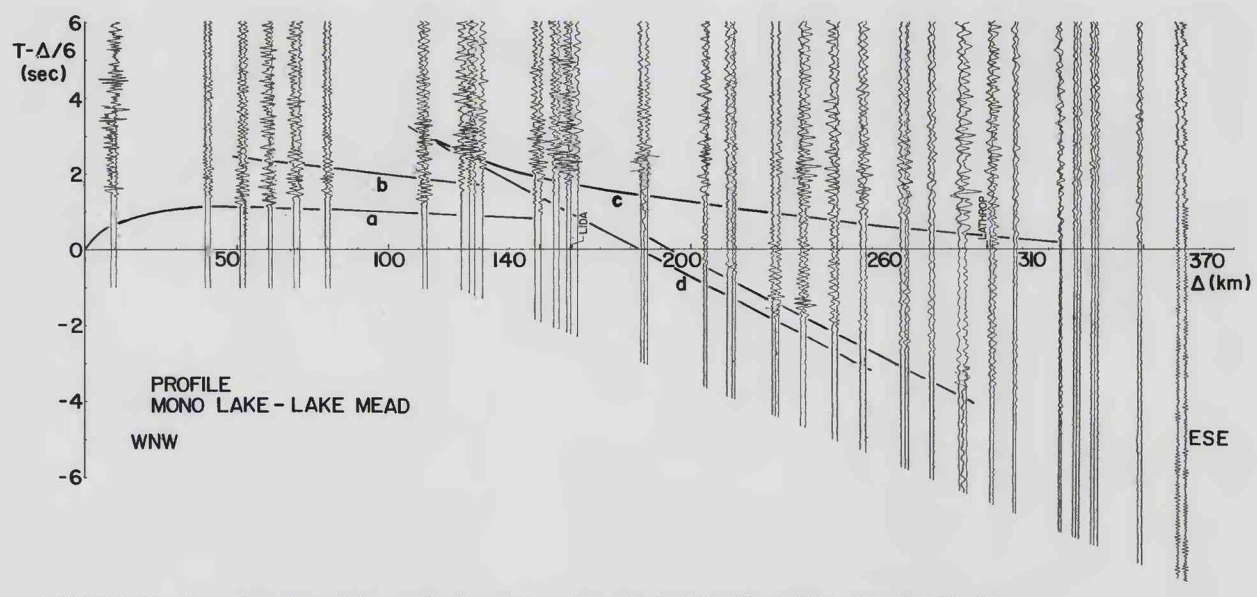

FIGURE 59.—Record section of the profile from Mono Lake (6) to Lake Mead (22). Data in table 91.

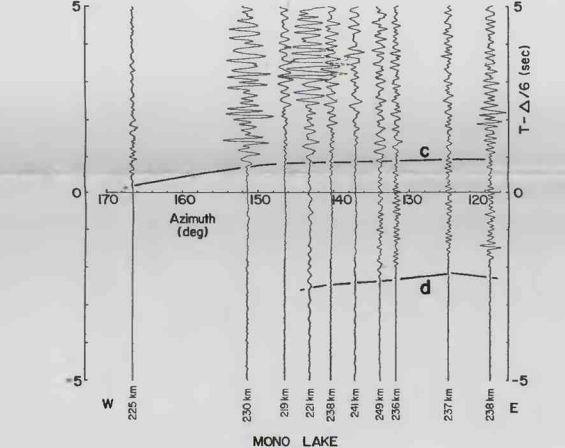

FIGURE 60.—Record section of fan observations from Mono Lake at 230 km distance. Data in table 92.

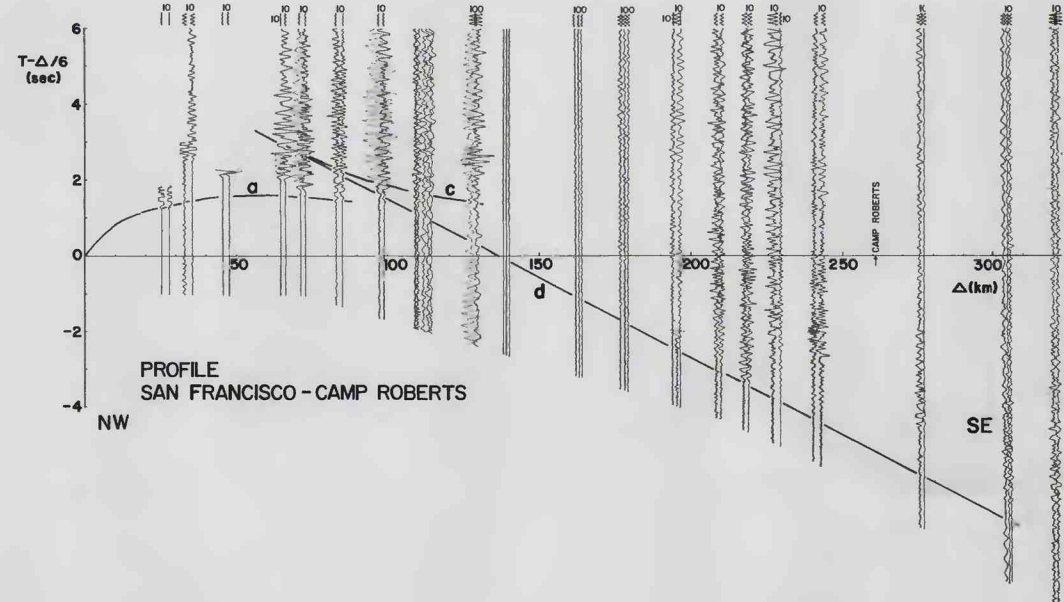

FIGURE 64.—Record section of the profile from San Francisco (1) to Camp Roberts (2). Data in table 93.

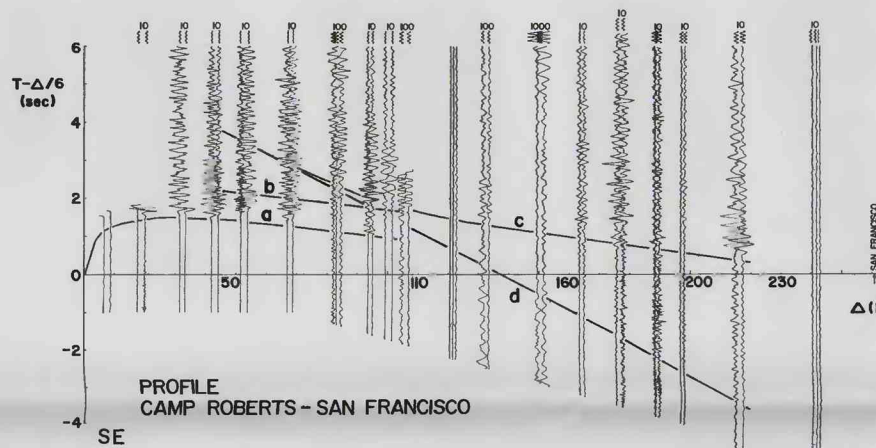

FIGURE 65.—Record section of the profile from Camp Roberts (2) to San Francisco (1). Data in table 94.

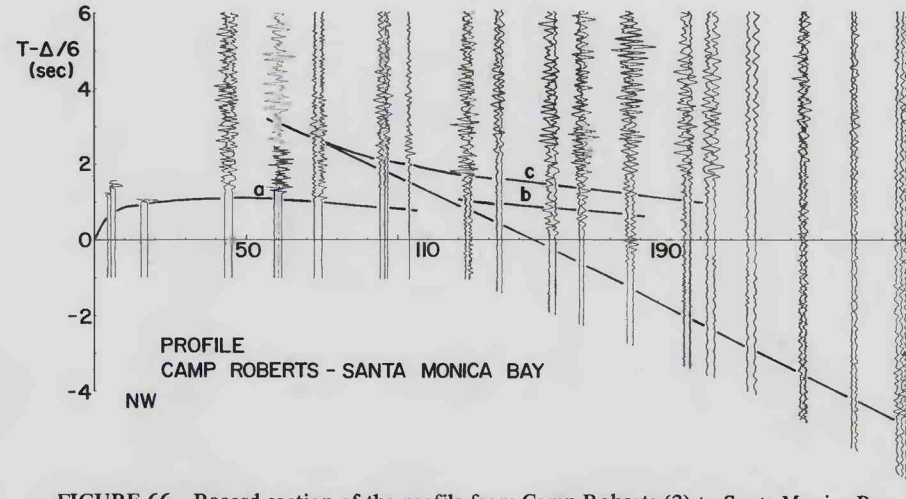

FIGURE 66.—Record section of the profile from Camp Roberts (2) to Santa Monica Bay (4). Data in table 95.

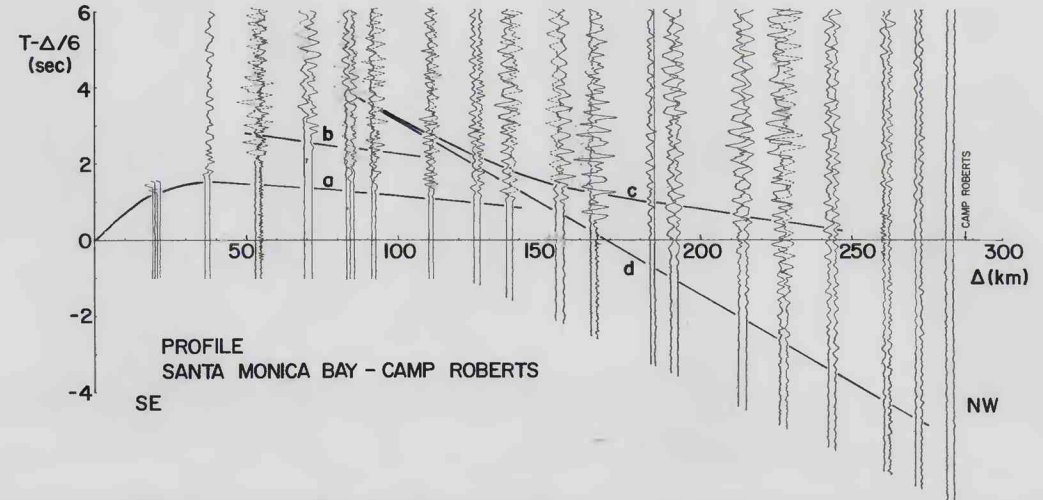

FIGURE 67.—Record section of the profile from Santa Monica Bay (4) to Camp Roberts (2). Data in table 96.

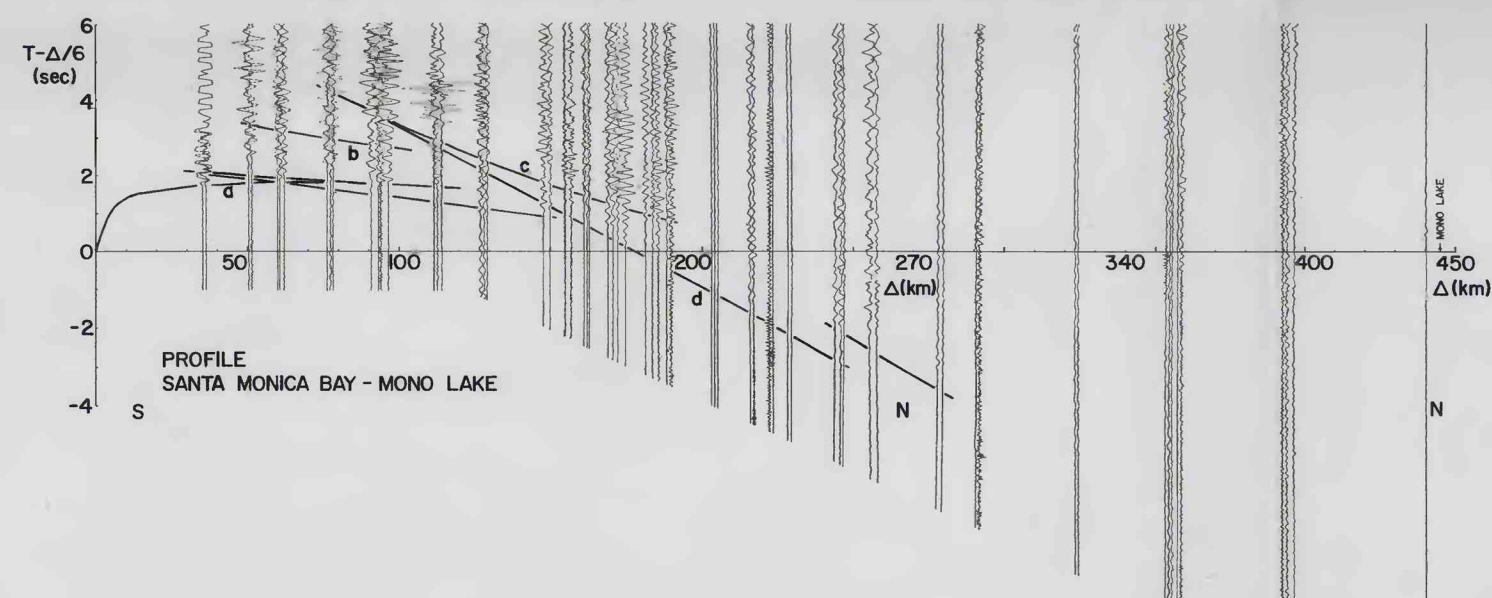

FIGURE 69.—Record section of the profile from Santa Monica Bay (4) to Mono Lake (6). Data in table 97.

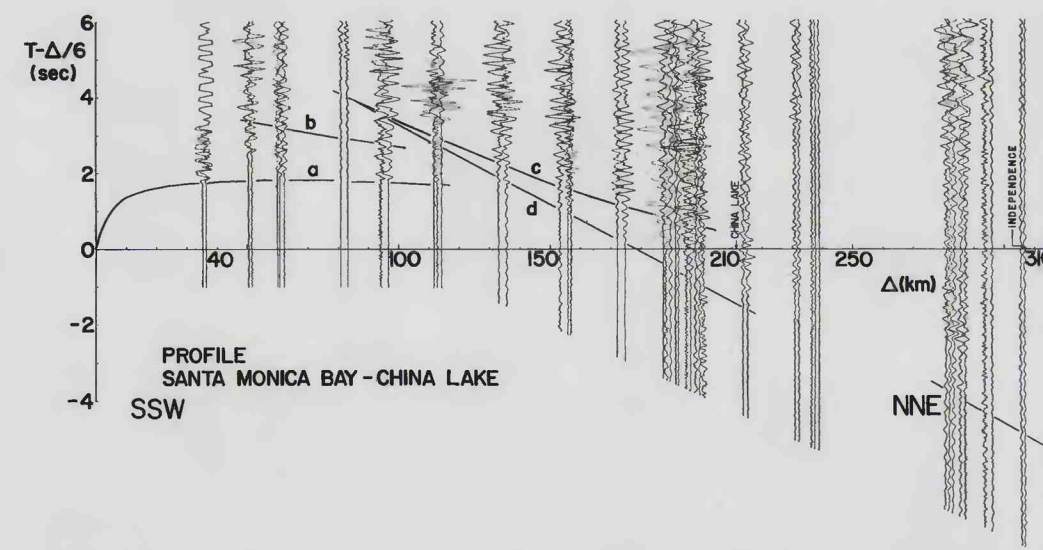

FIGURE 70.—Record section of the profile from Santa Monica Bay (4) to China Lake (8). Data in table 98.

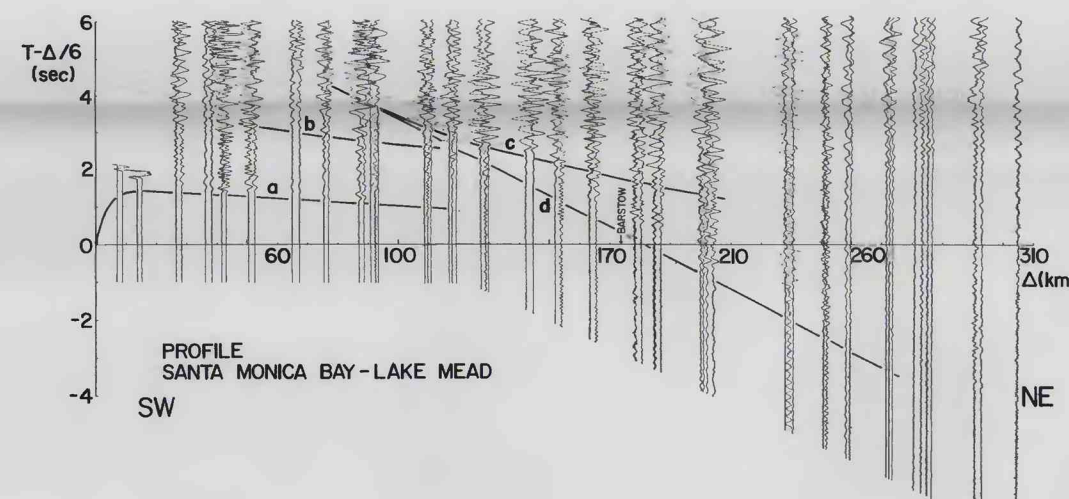

FIGURE 71.—Record section of the profile from Santa Monica Bay (4) to Lake Mead (22). Data in table 99.

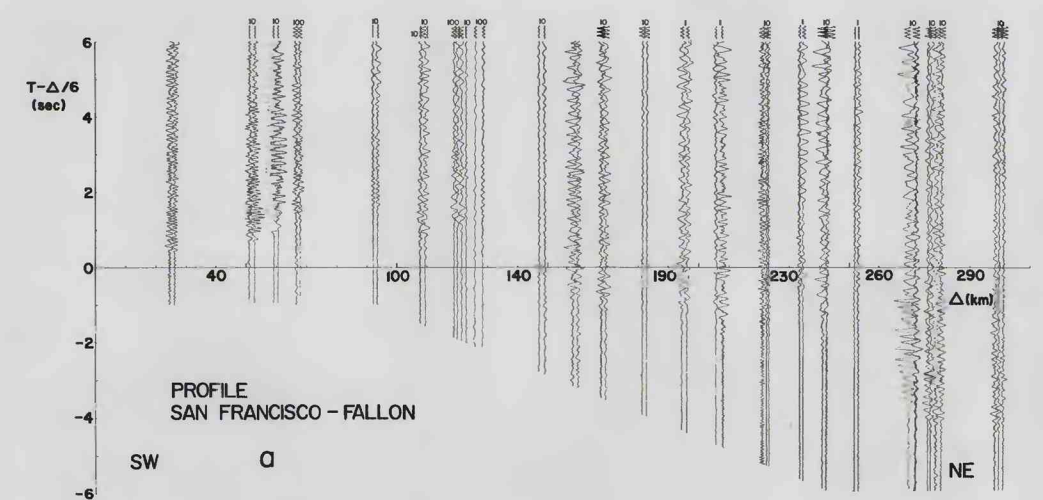

FIGURE 72.—Record section of the profile from San Francisco (1) to Fallon (9). Data in table 100. (a) Not corrected, without interpretation. (b) Corrected: Records of the stations in the Great Valley were shifted along the time axis to eliminate traveltime delays in sedimentary rocks in the valley. Corrections applied are listed in table 106.

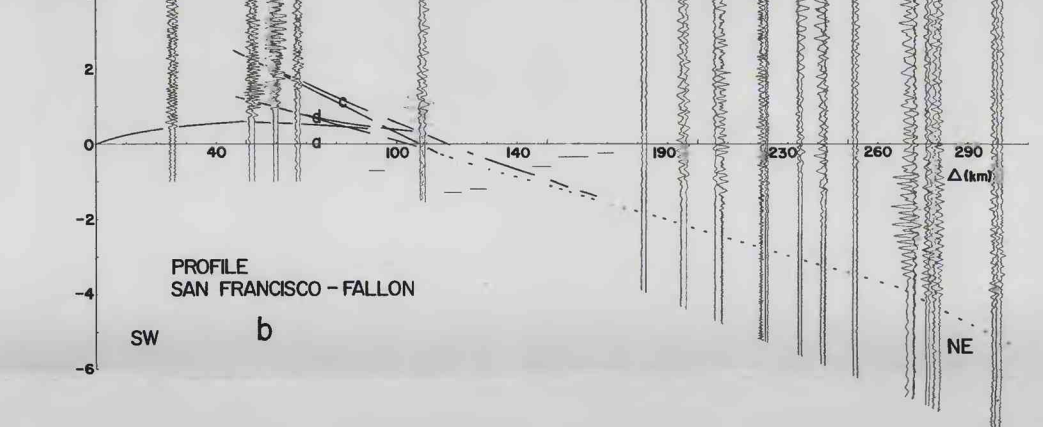

FIGURE 73.—Record section of the profile from San Luis Obispo (3) to NTS (19). (a) Not corrected, without interpretation. (b) Corrected: Records of the stations in the Great Valley were shifted along the time axis to eliminate traveltime delays in sedimentary rocks in the valley. Corrections applied are listed in table 106.
