

QE 75 .058 p no. 1245 c. 1

ORTHOMETRICALLY CORRECTED OBSERVED ELEVATION DIFFERENCES AMONG SELECTED BENCH MARKS IN THE OILDALE AREA AT VARIOUS TIMES SINCE 1903

LIBRARY
Bureau of Reclamation
Denver, Colorado

Note: Elevation differences in meters. The magnitude of any height change at a given bench mark with respect to any control point listed in this table may be calculated directly by comparing successive elevation differences in the box relating the identified control point to the bench mark; the sense of movement may be deduced from the elevations listed in table 1. Locations shown on plate 1.
