

- EXPLANATION**
- Area of outcrop or shallow subcrop
 - Fault—U, upthrown side; D, downthrown side. Dashed where inferred
 - 500—Line of equal thickness of the Black Warrior River aquifer—Dashed where approximately located. Interval 250 and 500 feet
 - Limit of the Black Warrior River aquifer
 - Landward extent of ground water containing greater than 10,000 milligrams per liter dissolved solids on top of aquifer
 - Landward extent of ground water containing greater than 10,000 milligrams per liter dissolved solids at base of aquifer
 - Well control point

SCALE 1:2,500,000
0 25 50 75 100 MILES
0 25 50 75 100 KILOMETERS

Base modified from U.S. Geological Survey digital data, 1:2,000,000, 1972

THICKNESS AND EXTENT OF THE BLACK WARRIOR RIVER AQUIFER
